## **Investment Manual**

## FOREWORD

The sun casts rays of illuminating light into the mind constantly;

The sea nurtures and nourishes growth and prosperity incessantly.

Xiamen is situated on the western coast of the Taiwan Strait in the East China Sea. As one of China's first four special economic zones, Xiamen stands at the forefront of China's reform and opening-up. Specifically, Xiamen is a scenic international port city, a popular tourist destination and a strategically pivotal city on the 21st-Century "Maritime Silk Road". She was also the host city of the 9th BRICS Summit, praised by Chinese President Xi Jinping as "a leading city for innovation and entrepreneurship" and "an enchanting and ecological garden city".

In the past 41 years of reform and opening-up, Xiamen has seen an average annual growth of 15.2% in its GDP and 18.4% in its gross financial revenue. Today, Xiamen is a haven for creativity, innovation and entrepreneurship. The city leads the nation in terms of total economic output and financial revenue per square kilometer of land, per capita GDP and financial revenue, and foreign trade competitiveness. High-tech enterprises account for nearly 70% of the added value of the city's industry. Moreover, Xiamen is one of the nation's highest-level comprehensive international transportation hub and top four international shipping centers. Its annual port container throughput exceeds 10 million TEUs, the 14th highest in the world, and there are 35 scheduled flights services to international destinations. In addition, Xiamen is the gateway to mainland China for Taiwan residents and businesses, and one of China's most business-friendly cities. Furthermore, Xiamen ranks first in the ecological civilization index of Chinese cities at the prefecture level and above, and its good air quality rate is the fourth highest in China. Xiamen has also won the title of "National City of Excellence in Civil Ethics" for five consecutive terms.

On April 29, 2019, we held the Xiamen Investment Promotion Convention, extending invitations to business people all over the world for win-win cooperation and common development in the city. Over the past year, Xiamen officials have worked untiringly and unceasingly to raise investment quality and efficiency and maintain the strong growth momentum. A series of business and investment promotion events have been staged, including

the "Triple-High" Enterprise Development Convention, the Financial Industry Promotion Conference, the Development Convention for the Cultural, Tourism and MICE Industries, and the New Economy Development Summit. Xiamen also rolled out competitive pro-business policies to ensure high-quality development and build a world-class business environment. The people of Xiamen all did their part, in ways big and small, for the creation of a super business environment, setting off a wave of inbound investment and economic development. Last year, a total of 2,383 investment projects were generated, with the top value topping RMB 1.2 trillion, and our GDP growth rate was the highest in five years, ranking first among the nation's 15 semi-provincial level cities. Moreover, our per capita GDP exceeded USD 20,000 for the first time, taking the city's development to a new level.

At present, guided by Xi Jinping Thought on Socialism with Chinese Characteristics for a New Era, Xiamen is making all-out efforts to implement new development concepts and is speeding up the establishment of a modern system of industries. The city is poised to become a glamorous global metropolis. We warmly welcome entrepreneurs to make full use of the Xiamen's broad range of preferential investment policies as a special economic zone, a pilot free trade zone, a national demonstration zone for indigenous innovations, a cross-strait pilot zone for integrated supportive reforms, and a strategically pivotal city on the 21st-Century "Maritime Silk Road". Xiamen is an unrivalled destination for capital, technology and talent. Together, we will secure splendid achievements in the city's new phase of development.

On the occasion of the first anniversary of the Xiamen Investment Promotion Convention, we publish this updated edition of *Xiamen Investment Manual*. We hope that the information provided in this manual regarding Xiamen's investment environment will be helpful for your investment decision-making. Thank you for taking time to read this manual, and we look forward to welcoming you to the "Garden on the Sea".

## Geographic Advantages ▼

### ▶ A Port City with a Long History

In his 1864 trade report, George Hughes, Commissioner of Customs in Xiamen, wrote: "Xiamen is the point connecting the Chinese market to the South markets." (Note: The South markets include present-day Thailand, Singapore, Malaysia, Indonesia and other Southeast Asian countries.)

### ▶ A Strategically Pivotal City on the 21st-Century Maritime Silk Road

Under the "Belt and Road" Initiative, Fujian is designated as the "Core Region of the 21st-Century Maritime Silk Road". As a major node of seamless connection between the Land and Maritime Silk Roads, Xiamen is set to become a strategically pivotal city on the 21st-Century Maritime Silk Road, serving as a hub for global connectivity, economic and trade cooperation, maritime cooperation and cultural exchange.

### ▶ A Major International Shipping Hub

Centrally located between Southeast Asia and Northeast Asia, the Port of Xiamen has direct links to 149 ports in 54 countries and regions around the world.

### ▶ A Major Point of Access to the Sea from Mainland China

Xiamen faces the Taiwan Strait to the east, bordering the Pearl River Delta to the south and the Yangtze River Delta to the north. The city is also connected westward to Jiangxi, Hunan, Hubei and the vast hinterland along the Beijing-Kowloon Railway.

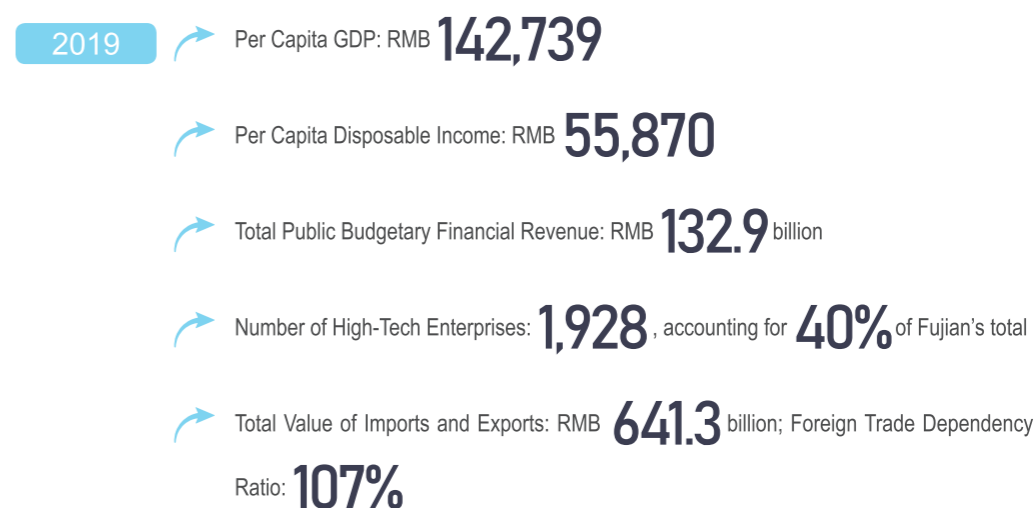

### ▶ A Strategic Pivot for Exchange and Cooperation with Taiwan

Xiamen is the only special economic zone in mainland China which has been set up with Taiwan in mind. The city has been authorized to conduct comprehensive supportive reforms for the purpose of deepening the exchange and cooperation across the Taiwan Strait. Xiamen will be built into a cross-strait demonstration zone for integrated development and is on track to become the number one destination for Taiwan residents and businesses bound for mainland China.

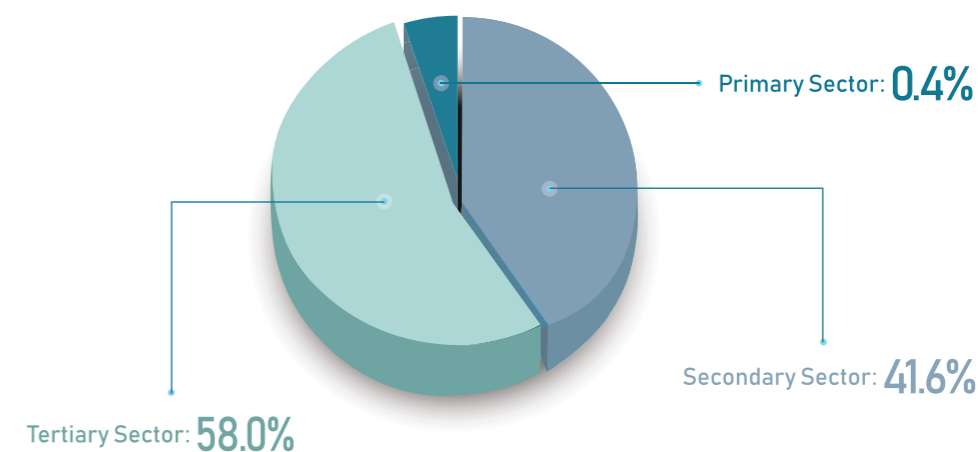

## Economic Strength ▼

### Ever-Increasing Comprehensive Economic Strength

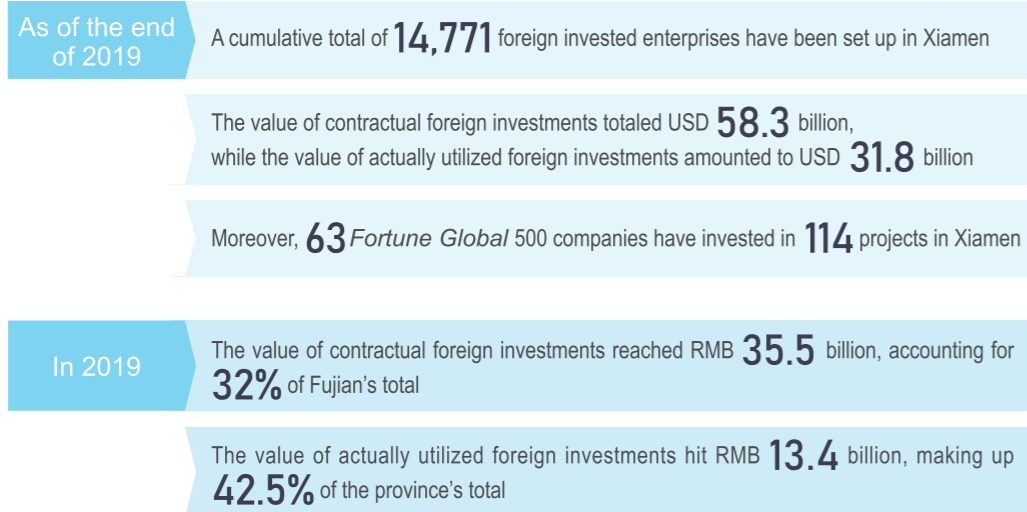

GDP growing by 15.2% per year on average since reform and opening-up started 41 years ago

## Transportation Network

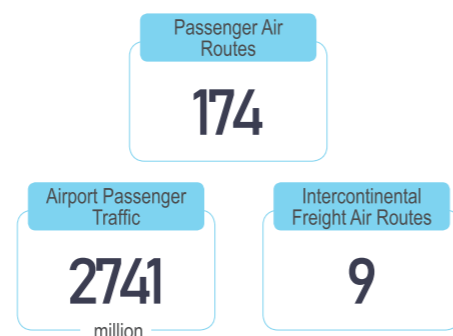

### Rooted in Southeastern China, Embracing the Whole Country, and Connecting to the World

As one of the nation's 12 highest-level "comprehensive international transportation hubs" designated by the State Council, Xiamen boasts superb sea, land and air transportation facilities, as well as a cruise port. Its international airport, seaport, expressways and railways facilitate the flow of passengers and freight. The city is a central transportation hub delivering seamless global connectivity with unrivalled operational efficiency and a full range of services.

#### Convenient Air Transportation

Non-Stop International Flights from Xiamen

Destination (for passengers)	Flight Hours	Flights
Hong Kong	1.5	4, daily
Macao	1.3	2, daily
Taipei	1.6	3-4, daily
Kaohsiung	1.5	4, weekly
Tokyo	4	2, daily
Osaka	3.2	2, daily
Seoul	3.2	2, daily
Singapore	4.5	3, daily
Manila	2.5	3-4, daily
Kuala Lumpur	4.4	2-3, daily
Bali	5.5	1, daily
Jakarta	5	1, daily
Cebu	3	3, weekly
Sabah	3.4	3, weekly
Bangkok	3.5	2-3, daily
Ho Chi Minh City	3.2	1-2, daily
Sihanouk	3.2	1-2, daily
Phnom Penh	3.3	1, daily
Siem Reap	3	2, weekly
Rangoon	4	2, weekly
Mandalay	4	2, weekly
Melbourne	9.2	5, weekly
Sydney	9.2	4, weekly
Los Angeles	12.5	6, weekly
Vancouver	11.6	3, weekly
Amsterdam	12.5	4, weekly (winter) 6, weekly (summer)

Xiamen Airport is one of the six largest airports in mainland China. Citizens from selected nations who transit through Xiamen Airport are eligible for 144-hour visa exemption. Xiamen Airport has earned the platinum accreditation in IATA's Fast Travel Program and has been rated by CAPSE as the Best Airport of the Year for six consecutive years.

The Xiang'an International Airport, which is currently under construction, is expected to handle 85 million passengers a year. Slated for completion by the end of 2023, the new airport will be a major regional aviation hub on China's southeastern coast, a "gateway" hub airport on the Maritime Silk Road and a leading airport for transportation across the Taiwan Strait.

Destination (for freight)	Flight Hours	Flights
Hong Kong	1.5	2, weekly
Taipei	1.5	2, weekly
Tokyo	3.5	4, weekly
Luxembourg	15	2, weekly
Los Angeles	13	1, weekly

#### Advanced Shipping Hub

Xiamen is one of China's top four international shipping centers and the logistics center on China's southeastern coast. The Port of Xiamen operates 152 container shipping routes, including 101 international routes (69 routes to countries along the Maritime Silk Road). There are 175 operative berths (including 80 berths capable of handling ships over 10,000 tonnes). The Port of Xiamen is an integrated hub for direct transportation across between mainland China and Taiwan. The ferry services between Xiamen and Kinmen account for 20% of the passenger traffic across the Taiwan Strait. Last year, 1.82 million passengers were recorded, bringing the cumulative total to 19.69 million.

China's largest container port

7<sup>th</sup>

The world's largest container port

14<sup>th</sup>

TEUs handled

11.12

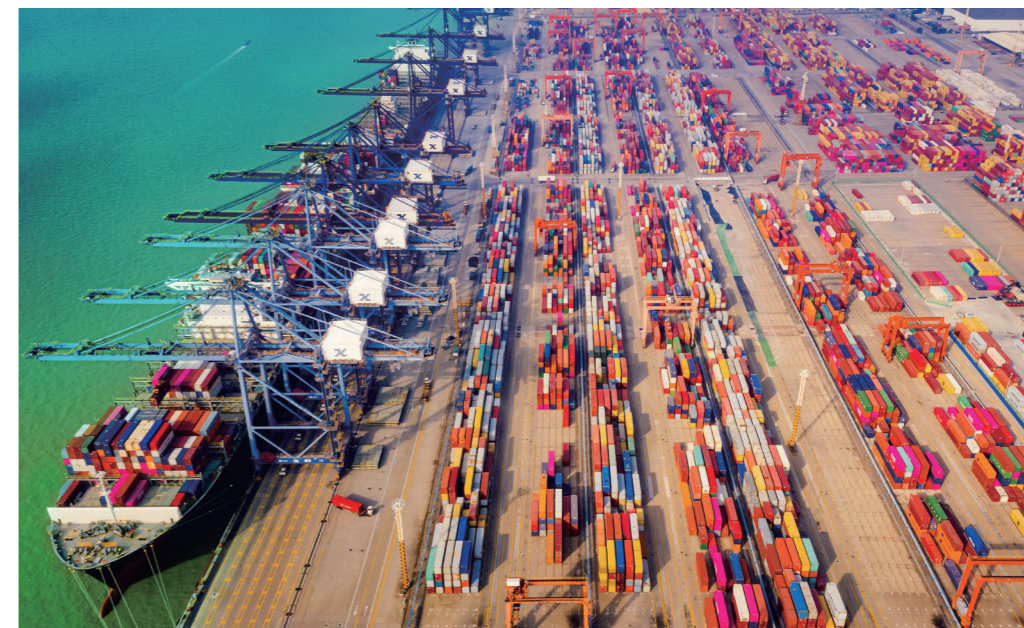

million

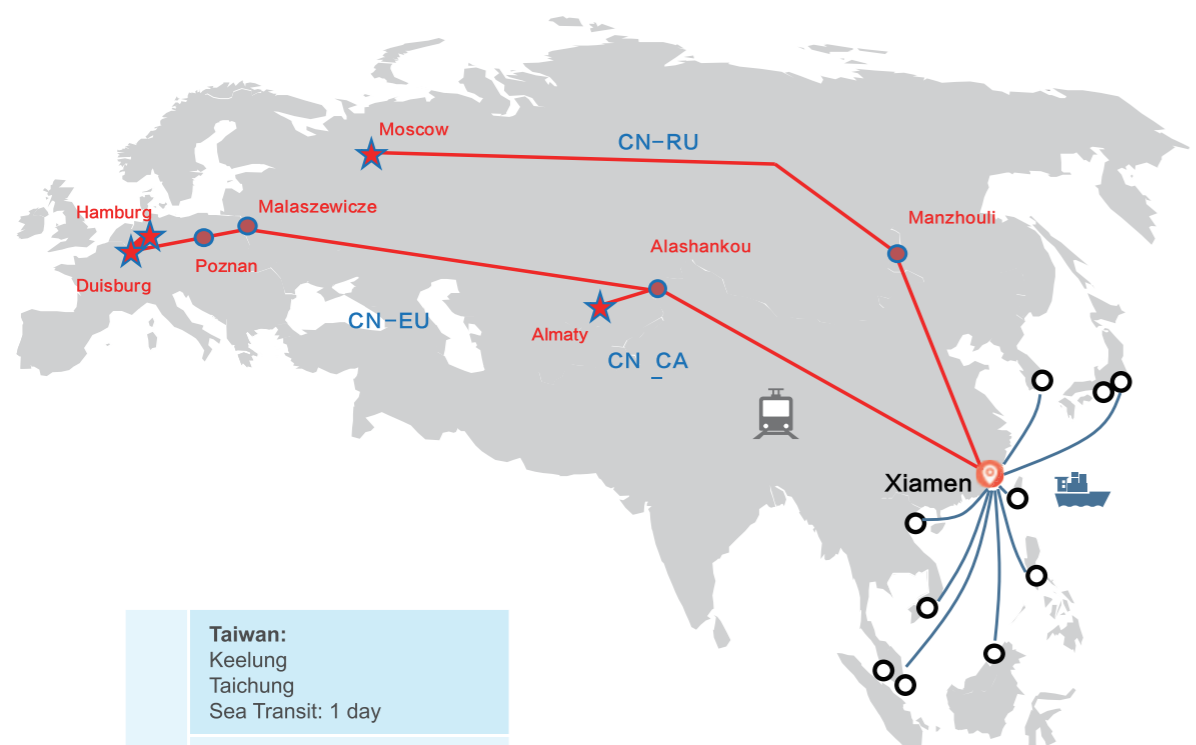

#### Silk Road Shipping

Fujian Province is taking advantage of its standing as the core region of the Maritime Silk Road to build a "Silk Road Shipping" Alliance, formulate and promote the "Silk Road Shipping" service standards, and broaden cooperation with international ports. This initiative, with the Port of Xiamen at the core, is expected to transform Xiamen into a national center for not only "Silk Road Shipping" but also for China-Europe freight train services. Thus, the network of "Silk Road" shipping will be further expanded, and a great channel for sea and land transportation across the world will emerge to facilitate economic and trade cooperation and the flow of logistics between the East and the West. In December 2018, "Silk Road Shipping"-named shipping routes were officially launched in Xiamen. At present, 60 such shipping routes are in operation.

#### Hub of Efficient Land Transportation

Xiamen is seamlessly connected to central and western China through the Shenyang-Haikou, Xiamen-Chengdu and Xiamen-Shaxian Expressways and other intercity rapid transit links. With the Yingtan-Xiamen, Fuzhou-Xiamen, Xiamen-Shenzhen and Longyan-Xiamen Railways, Shanghai, Shenzhen and Fuzhou are merely five, three and two hours away by train, respectively. At present, a high-speed rail link between Fuzhou and Xiamen and an intercity rail system that links up Xiamen, Zhangzhou and Quanzhou are under planning and construction.

China (Xiamen)-Europe Freight Trains – A New National Channel of Logistics

### China (Xiamen)-Europe Freight Trains

Among the cities where China-Europe freight trains are available, Xiamen is the only land-sea hub city with seamless connections to the “Belt” and the “Road”. International freight trains operate between Xiamen and Europe, Central Asia and Russia, reaching 34 cities in 12 countries. Sea-rail combined transport facilitates the flow of goods between Xiamen and Hong Kong, Taiwan, South Korea, the ASEAN countries and Europe, making Xiamen a hub on the three major logistics links between China and Central Europe, Central Asia and Russia.

Starting Point	Transit Time
Xiamen-Alashankou-Malaszewicze-Duisburg-Hamburg	12-17 days
Xiamen-Alashankou-Poznan	18 days
Xiamen-Alashankou-Almaty	10 days
Xiamen- Erenhot-Moscow	13 days

Starting Countries and Regions for Sea-Rail Combine

<b>Taiwan:</b> Keelung Taichung Sea Transit: 1 day
<b>Hong Kong:</b> Sea Transit: 1 day
<b>Vietnam:</b> Haiphong Da Nang Ho Chi Minh Sea Transit: 3-4 days
<b>Korea:</b> Busan Sea Transit: 3 days
<b>Japan:</b> Osaka,Kobe Tokyo,Yokohama Sea Transit: 3 days
<b>Thailand:</b> Bangkok Laem Chabang Sea Transit: 3-5 days
<b>Indonesia:</b> Jakarta Sea Transit: 3-5 days
<b>Philippines:</b> Manila Sea Transit: 3-5 days
<b>Malaysia:</b> Port Kelang Sea Transit: 3-5 days

### Transit Rail System

Metro Lines 1 and 2 have opened, linking Xiamen Island to Jimei and Haicang. Metro Lines 3, 4 and 6, with a total length of 190.3 kilometers, are under construction. Based on the three links connecting the island to the mainland area, Xiang'an International Airport and Xiamen North Railway will provide air-rail combined transport and an efficient transit system will be in place around the bay.

Map of Xiamen's Planned Transit Rail System

## Education

### ● Educational Resources

- There are 1,429 full-time schools, including 18 institutions of higher education, 120 secondary schools, 296 elementary schools, 989 kindergartens, and six special education schools.
- In addition, there are three international schools for expatriates' children: Xiamen International School, Manila Xiamen International School, and Xiamen Concordia International School.

LINK

#### Xiamen University

Xiamen University (XMU) is part of Project 211, Project 985 and the nation's Double First-Class University Plan (the World First Class University and First Class Academic Discipline Construction Plan), three national initiatives aimed at elevating selected Chinese universities to world-class status. XMU's chemistry, oceanography, biology, ecology and statistics programs have been included into the nation's list of academic programs for world-class status. At present, 22 XMU professors are academicians of the Chinese Academy of Sciences and the Chinese Academy of Engineering. Reputed as the "pride of southern China" and "China's most beautiful university", XMU is the first Chinese university to establish an overseas campus (in Malaysia).

#### Huaqiao University

Huaqiao University (HQU) is directly affiliated with the Overseas Chinese Affairs Office of the State Council. HQU is a "high-priority university supported by the State" and part of Fujian Province's Double First-Class University Program. At present, HQU hosts over 5,000 students of Chinese descent from 40-plus countries and regions, students from Hong Kong, Macao and Taiwan, and students of foreign citizenship.

#### Jimei University

Jimei University (JMU) was founded in 1918 by renowned patriotic overseas Chinese leader Tan Kah Kee. JMU is one of Fujian Province's key institutions of higher education. The university receives support from not only the Government of Fujian Province but also the Ministry of Transport and the State Oceanic Administration.

## Environmental Advantages ▼

### World-Class Business Environment

Xiamen was one of the first Chinese cities to build a world-class business environment according to the World Bank's Ease of Doing Business (EDB) Index System. In the 2019 evaluation by the National Development and Reform Commission, Xiamen ranked among the top Chinese cities in terms of business environment, leading the nation in introducing innovative practices for issuing building permits and for tax services. Xiamen's social credit system has also steadily improved. In 2009, Xiamen's comprehensive credit index was the fifth highest among the 36 provincial capital cities and semi-provincial level cities in mainland China.

### Ecological Living Environment

Xiamen is one of China's most popular destinations for international tourists, reputed as the "Garden on the Sea". In Xiamen, the average annual temperature is 20.7°C, and the climate is mild all year round. There are 150 parks and the green coverage rate reaches 45.1%. With a good air quality rate of 97.5%, Xiamen's integrated air quality index ranks fourth among the 168 key cities in the country, and its ecological civilization index is the highest among Chinese cities at the prefecture level and above.

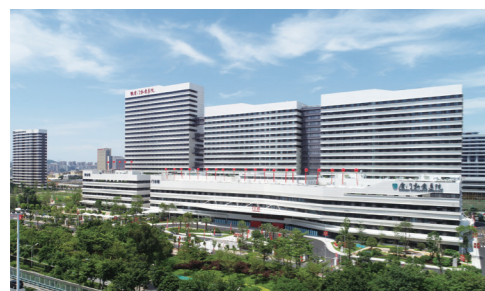

## Healthcare

### Health Institutions

◎ Xiamen boasts 2,111 medical and health institutions, including 63 hospitals, 2,005 primary-level medical and health institutions, 24 specialized public health institutions, and 19 other health institutions. There are eight Class A, Grade 3 hospitals in Xiamen, all of which offer medical services to expatriates.

◎ The city has 11 national-level key clinical specialties, including pediatric intensive care, gastroenterology, cardiology and ophthalmology.

◎ Xiamen residents' main health indicators are close to the average level of developed countries, and the average life expectancy among residents in Xiamen reaches 80.89 years.

LINK

#### First Affiliated Hospital of Xiamen University

China's top 100 hospitals and China's top 100 HIC hospitals, accredited by Joint Commission International (JCI) as an HIMSS EMRAM Stage 7 Hospital (the highest designation) for both inpatient and outpatient care.

#### Fudan University Zhongshan Xiamen University

One of the nation's first pilot regional medical centers, jointly built by Xiamen City and Fudan University and boasting two academician work stations and 12 "eminent doctor" studios.

#### Xiamen Cardiovascular Hospital of Xiamen University

One of China's top 100 hospitals in terms of the Science and Technology Evaluation Metrics (Cardiovasology).

#### Chung Gung Memorial Hospital

The first Taiwan-funded Class A, Grade 3 general hospital in mainland China, ranked 14th in the 2017 Asclepius List of China's 100 Most Competitive Non-Public Hospitals.

#### Xiamen Humanity Hospital

A modern Grade 3 non-profit general hospital initiated by C&D Corporation and established by Benevolence Medical Foundation, boasting a large number of full-time senior doctors renowned nationally for their expertise.

#### Sichuan University Huaxi Xiamen Hospital

Slated for completion in 2022 and set to become a leading regional medical center for complicated and critical illnesses, with plans to bring in at least five national-level key clinical specialties from the Affiliated Hospital of Sichuan University.

## Tourism, Culture and Sports

### Unique Tourism Resources

- Gulangyu Island (Kulangsu)
- Wanshi Botanical Garden
- Horticulture Expo Garden
- Fantawild Dreamland
- Riyuegu Hotsprings Resort

LINK

#### Cruise Tourism

Xiamen is one of China's top four pilot cruise ports, able to accommodate four large or medium-sized cruise liners simultaneously and the world's largest cruise ship, which has a gross deadweight tonnage of 220,000. In 2019, Xiamen received 136 cruise liners, the second highest number in China. "Gulangyu", China's first cruise ship with a homegrown brand, operates with Xiamen as its home port.

Nanyin

## ◆ Splendid and Diverse Cultural Heritage

Rich tangible and intangible cultural heritage

- World Cultural Heritage Site: Kulangsu, a historic international settlement
- Intangible Cultural Heritage of Humanity: Nanyin (South Fujian Melodies)
- Seven Cultural Heritage Sites under National-Level Protection: Gulangyu Premodern Building Complex, Huli Hill Fort, Turtle Garden, Ciji Palace of Qingjiao, ...

## ◆ Wide-Ranging Public Cultural Infrastructure

- 12 Museums and Memorial Halls
- 10 Public Libraries
- 7 Public Cultural Centers

## ◆ Broad Cultural Exchanges

- Golden Rooster & Hundred Flowers Film Festival
- Xiamen International Fashion Week
- Xiamen International Animation Festival
- Strait Travel Fair
- Cross-Strait Cultural Industries Fair
- Cross-Strait Book Fair
- Arles International Photography Festival

## ◆ Exquisite & Elegant Art City

Banlam Grand Theater, Jiageng Theater, Cangjiang Theater and Hongtai Concert Hall present outstanding domestic and international shows, as well as high-standard concerts and other artistic performances, throughout the year.

Xiamen Philharmonic Orchestra regularly collaborates with world-renowned conductors and soloists to hold "Weekend Symphony" concerts, promoting refined music and enriching local cultural life.

Xiamen Philharmonic Orchestra

Turandot at Banlam Grand Theater

## ◆ Major Sports Events

Xiamen Marathon / IRONMAN Xiamen Triathlon Games / Xiamen-Kinmen Strait Crossing / Cross-Strait Dragon Boat Race / Strait Cup Sailing Race / World Cup Rock Climbing Competition / U.I.M.F1 Motorboat World Championships Xiamen, China

LINK

### Xiamen Marathon

Inaugurated in 2003, Xiamen Marathon is held in early January every year. It has become one of the most nationally influential and internationally recognized marathon events in China, and has been an IAAF Gold Label Road Race for 13 consecutive years. In 2019, Xiamen Marathon received the Green Award from the Association of International Marathons and Distance Races (AIMS).

Mountains-to-Sea Trail

LINK

**Mountains-to-Sea Trail**

The trail starts from the cruise terminal and ends at Guanyinshan Dreamy Beach, stretching about 23 kilometers. It links up Yundang Lake, Huwei Mountain, Xianyue Mountain, Hubian Reservoir, Wuyuan Bay and Guanyinshan. The trail is ideal for leisure, fitness, sightseeing and strolling.

Romantic Seashore Tourism Line

**Romantic Seashore Tourism Line**

A high-grade marathon track will be built along the seashore, and along the track, a number of sports-themed parks will be built to promote athleticism.

Strait Grand Theater

**Strait Grand Theater**

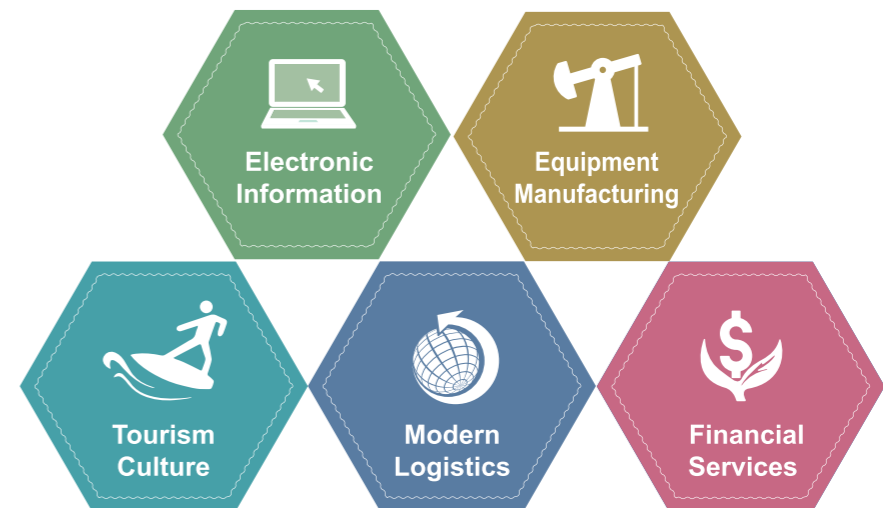

The theater serves as the permanent venue for the awards-presenting ceremony of the China Film Golden Rooster Awards. With a gross floor area of 92,000 square meters, the theater has a seating capacity for nearly 7,000 people.

**INDUSTRY ORIENTATION**

**02**

**Key Industries for Development**

In light of its resource endowment and functional positioning, Xiamen focuses on developing five major industrial clusters: electronic information, equipment manufacturing, tourism culture, modern logistics, and financial services. The city sets its sights on building 10-plus industrial-chain clusters with RMB 100 billion in annual revenue, including flat panel displays, computers and communication equipment, semiconductors and integrated circuits, software and information services, mechanical equipment, new materials, tourism and MICE, cultural and creative industries, modern logistics, financial services, biomedicine and health, and modern urban agriculture. These industrial-chain clusters are set to enhance the comprehensive competitiveness of Xiamen's industries across the board.

## Industrial Clusters

### Electronic Information

Flat panel displays, computers and communication equipment, semiconductors and integrated circuits, software and information services (including “new infrastructure” based on 5G, artificial intelligence, the Industrial Internet, the Internet of Things, big data, blockchain, and intelligent transportation, plus derivative modern producer services)

### Equipment Manufacturing

Mechanical equipment, new materials

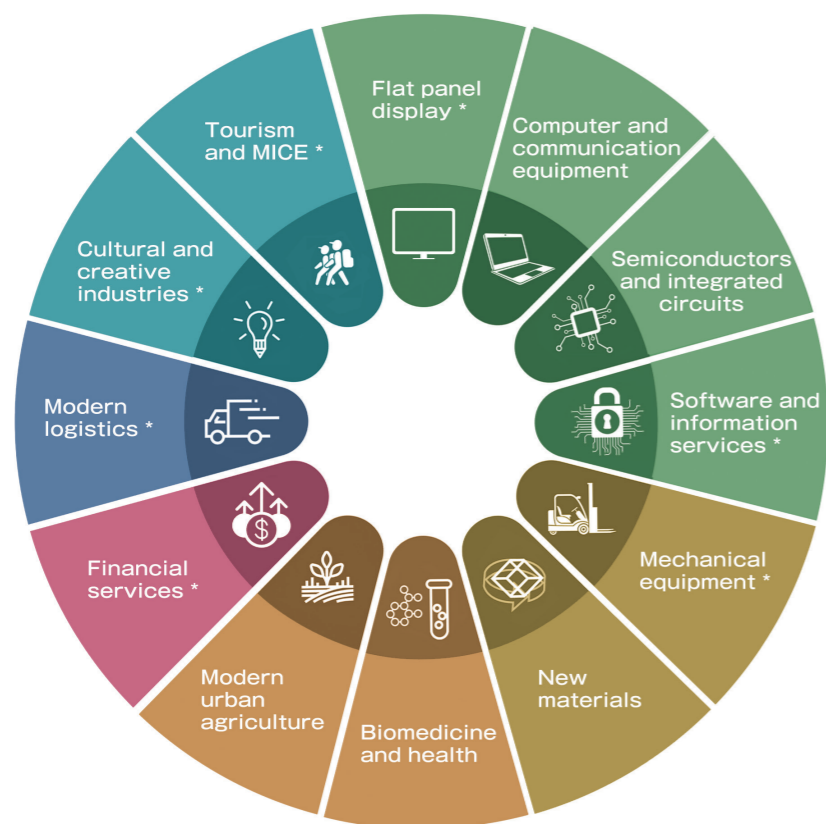

### Tourism Culture

Tourism, MICE, cultural and creative industries, sports industry

### Modern Logistics

### Financial Services

## Industrial-Chain Clusters with RMB 100 Billion in Annual Revenue

## Flat Panel Displays

### Development Foundation

Xiamen is one of the regions in mainland China where the TFT-LCD industry has grown by leaps and bounds, and the city's TFT-LCD industry is among the six largest in China. At present, Xiamen is the nation's only pilot city for optoelectronic display industrial clusters and the world's largest R&D and production base of global touch screen modules. In 2019, the output value of Xiamen's TFT-LCD industry reached RMB 146.5 billion, and several major projects were launched, including Tianma's

6th-generation flexible AMOLED production line, Nippon Electric Glass's Phase 3 electric nitrate glass substrate project, and TPK's wearable and 3D touch modules. A comprehensive industrial chain is now in place in Xiamen, covering every field from glass substrates, panels and modules to LCDs and complete machines. Representative enterprises include Tianma Microelectronics, Nippon Electric Glass, AUO, Darwin Precisions, AOC, TPK Holdings, TPK Touch Solutions, and Hongxin Electron-Tech.

### Development Priorities

- New types of display screens, such as micro-LED, mini-LED, LTPS, OLED, laser, flexible display devices and 3D display products
- New types of electronic components, such as optoelectronic devices, display driver chips, new types of electromechanical components, high-density printed

- circuit boards, and flexible circuit boards
- Core materials and key components for the production of display and touch products, such as glass substrates, filters, polarizers, ITO and alternative new materials, brightening films, diffusion films, and reflective film targets

### Preferential Policies

**General Policy:** High-tech enterprise policy, policy for high-tech and high-growth enterprises with high added value, entrepreneurial incubation policy, talent and R&D support policy, technical transformation and intelligent manufacturing support policy, patent policy,

policy for encouraging IPOs, etc.  
**Special Policy:** Major projects that are in line with the orientation of the industry are considered on a case-by-case basis.

### Host Parks

Tongxiang High-Tech Industrial Base  
Torch (Xiang'an) Industrial Zone

#### Contact Information

Responsible Department: Xiamen Torch High-Tech Zone Administrative Committee  
Contact: Chen Xiaoxin  
Phone: 0592-5380918

## Computers and Communication Equipment

### Development Foundation

Xiamen is home to many leading manufacturers of integrated products, such as computers, mobile phones, video conference systems, mobile phone lenses, micromotors, flexible circuit boards, Bluetooth and wireless access equipment, digital audio-visual equipment, and vehicle communication, positioning and navigation devices, sensors, etc. The city also hosts many supporting and industrial-chain extension enterprises producing basic components, accessories and peripheral devices and providing IT services. Xiamen's shipments of complete computers, servers

and monitors are among the highest in China, and the city's brands of complete computers are globally recognized. In 2019, the output value of the city's computer and communication equipment industry totaled RMB 125.7 billion. Representative enterprises include computer manufacturers Dell and Inspur; mobile phone and other communication terminal manufacturers Lenovo Mobile, Yealink and Yaxon Network; and electronic component makers Tongda, GSEO, Mektec, Hualian Electronics, Fuji Electric, Dial Electronic and TDK.

### Development Priorities

- Manufacturing of high-performance computers, including general-purpose servers, cloud computing servers, and cloud storage equipment
- Core devices, network equipment, wireless communication equipment, mobile terminal products oriented toward new-generation network technologies, such as 5G and IPv6; gateways and equipment of Internet of Things

- Satellite communication, navigation, remote sensing equipment; robots, drones, autopilot systems, automatic control systems and other mid-range and high-end intelligent equipment
- Wearable devices and intelligent home products; virtual reality and augmented reality technology R&D and intelligent devices

### Preferential Policies

**General Policy:** High-tech enterprise policy, policy for high-tech and high-growth enterprises with high added value, entrepreneurial incubation policy, talent and R&D support policy, technical transformation and intelligent manufacturing support policy, patent policy,

policy for encouraging IPOs, etc.

**Special Policy:** Major projects in line with the orientation of the industry will be considered on a case-by-case basis.

### Host Parks

## Semiconductors and Integrated Circuits

### Development Foundation

Xiamen is home to over 300 enterprises in the semiconductor and IC industrial chains, covering everything from design and manufacturing to closed testing, and from equipment and materials to applications. In 2019, the output value of these enterprises totaled RMB 43.3 billion, making Xiamen the largest LED producer in China. There are three major agglomeration zones for IC enterprises – the Torch High-Tech Zone, Haicang Taiwanese Investment Zone, and the Huli Area of the Pilot Free Trade Zone.

The city's major platforms for this industry include Xiamen IC Design Public Service Platform, the National IC Shenzhen Industrialization Base Xiamen (Haicang) Base EDA Platform, and Xiamen IC R&D and Testing Center. Representative IC enterprises include Leadcore, San'an Integrated Circuits, Silan Microelectronics, Tongfu Microelectronics, Jaysun Semiconductors, Unisoc, Uxfastic and SigmaStar, and representative LED enterprises include San'an Optoelectronics, Changelight, Kaistar, Qiangli Jucai and Leedarson.

### Development Priorities

- Design, packaging and testing of integrated circuits, and manufacturing of advanced packaging boards
- Characteristic process manufacturing (or OEM) oriented toward the Internet of Things, intelligent terminals, automotive electronics, intelligent power grids, industrial control and other application fields
- R&D and manufacturing of 8-inch and above IGBT, MOSFET and other power devices, MEMS devices, and 3rd-generation compound semiconductors
- Manufacturing of etching machines, ion injectors,

- multi-wire sawing machines, automatic packaging systems, and automatic wafer testers
- Manufacturing of silicon single crystals, silicon epitaxial wafers, targets, photoresists, high-purity chemical reagents, bonding wires, and plastic sealing materials
- R&D and manufacturing of LED lighting, intelligent lighting, health lighting and its extensions, chips, packaging and other high-end products

### Preferential Policies

## Software and Information Services

### Development Foundation

In 2019, Xiamen was awarded the title of “Renowned Software City of China” by the Ministry of Industry and Information Technology. In the same year, the revenue of Xiamen’s software and information service industry totaled RMB 173.2 billion, an increase of 15.2% year-on-year. Xiamen leads the nation in many segments of the industry, including healthcare, animation and gaming, information security, the Internet, big data and AI. The momentum of industrial agglomeration continues unabated. Xiamen Software

Park alone accounts for about two-thirds of the revenue of the city’s software and information service industry. In the 2018 national quality evaluation of new types of industrialization demonstration bases, Xiamen Software Park was one of the four software parks in China winning the “Five Star” rating. Representative enterprises include Meiya Pico, Yealink, Meitu, YLZ, G-bits, 4399, Quyou, Wangsu, Meiyou, Ixigua, Unisound, Reconova, ZKTeco and Yilu.

### Development Priorities

- Software R&D and design: software development, IC design and embedded system design and other technical development services
- Information technology services: new-generation information technology services, such as the Internet, cloud computing, big data, AI and blockchain
- Digital content services: animation and gaming, digital audio-visual, digital publishing, digital new

- media and other cultural and creative services
- New infrastructure: 5G, the Internet of Things, the Industrial Internet, AI, cloud computing, blockchain, data center and other information infrastructure; intelligent transportation, smart energy and other converged infrastructure; major science and technology, science education and other innovation infrastructure

### Preferential Policies

Opinions on Accelerating the Development of the Software and IT Service Industry in Xiamen (*XM Gov. No. [2018] 374*)

Measures for Facilitating the Development of the New-Generation AI Industry in Xiamen (*XM Gov. No. [2018] 233*)

Provisions on Recognizing Key Software and IT Service Enterprises in Xiamen (*XM Ind., IT & Sfw. No. [2019] 87*)

Interim Provisions on the Talent Plans of the Software and Information Service Industry in Xiamen (*XM Econ, Info. & Sfw. [2018] 33*)

### Host Parks

Xiamen Software Park Phases II and III

## Mechanical Equipment

### Development Foundation

Xiamen’s mechanical equipment industry covers five major industrial segments: large and medium-sized passenger vehicles, power transmission and distribution equipment, aviation maintenance, construction machinery and shipbuilding. Its output value reached RMB 108.3 billion in 2019. Representative enterprises include King Long Motor, ABB, Schneider, Taikoo, XGMA and XSI. King Long Motor leads the nation in terms of the market share and technological standard of large and medium-sized passenger vehicles. ABB and Schneider, global giants of medium- and low-voltage

power transmission and distribution equipment, boast the largest production capacity and market share in China. The scale and technological standard of Xiamen Taikoo’s maintenance services for large commercial aircrafts are the highest in the Asia-Pacific region. XGMA’s production capacity and technical standard of loaders and excavators are among the highest in China. And XSI’s automobile roll-on/roll-off ships, developed with proprietary technology, is known as the “Xiamen type” in the international shipping market.

### Development Priorities

- Alternative-energy vehicles, intelligent vehicles; high-end forklift, loader, excavator systems and key components
- Intelligent power transmission and distribution equipment, complete systems and key components
- Commercial aircraft cabin remodeling, engine overhaul, landing gear maintenance, engine disassembly parts remanufacturing, aerospace equipment, system and application industrialization
- Tunnel boring machines, concrete pump trucks,

- environmental protection machinery and other new types of construction machinery; intelligent electric control systems, wet-type brake drive axles and other key components
- Luxury cruise ships, cruise-style roll-on/roll-off ships, LNG clean-energy roll-on/roll-off ships, marine engineering equipment, yachts, sailboats and high-performance law enforcement vessels
- Robots, CNC systems and key components

### Preferential Policies

Ten Measures for Accelerating the Development of Intelligent Manufacturing in Xiamen (*XM Gov. No. [2015] 267*)

Implementation Opinions on Accelerating the Popularization and Application of Alternative-Energy

Vehicles to Promote Industrial Development in Xiamen (*XM Gov. Ofc. No. [2017] 222*)

Administrative Provisions on the Special Funds for Industrial Transformation and Upgrading in Xiamen (*XM Econ. & Info. Ofc. No. [2018] 575*)

### Host Parks

Jimei Mechanical Industry Concentrated Zone, Torch Power Transmission & Distribution Industrial Base, Haicang Shipbuilding Industrial Park, Aviation Industrial Park, Airport Industrial Zone

## New Materials

### Development Foundation

Xiamen's new material industry is focused on special metal materials and advanced polymer materials; it covers optoelectronic information materials, alternative-energy, energy-efficient and eco-friendly materials, and advanced carbon nanomaterials. In 2019, its output value totaled RMB 91 billion. Major higher-education and research institutions in Xiamen include Xiamen University, Huaqiao University, the Xiamen University of Technology, the Xiamen Materials Academy of CSIC No. 725 Institute, and the CAS

Xiamen Rare Earth Materials Institute. Moreover, there are 20 corporate technology centers (including two at the national level and five at the provincial level), as well as 17 engineering technology research centers (including four at the national level and six at the provincial level) and eight key laboratories. Representative enterprises include Xiamen Tungsten, Xiashun Holdings, Xiamen Changsu, HMT (Xiamen) New Technical Materials, and Yanjan New Material.

### Development Priorities

- New functional materials, including new metal functional materials, rare earth functional materials, new membrane materials, functional glass and new optical materials, semiconductor materials, new energy materials and functional polymer materials
- Structural materials, including high-quality special iron and steel materials, high-performance non-ferrous metals and alloys, engineering plastics and synthetic resins
- High-performance composites, including high thermal-conductivity composites, high-performance fibers and composites, metal matrix composites and ceramic matrix composites
- Cutting-edge materials, including ultra-high-power graphite electrodes, carbon nanomaterials such as

graphene and fullerenes, superalloys, shape memory alloys, liquid metals, metals and polymer-based additive manufacturing materials, superconducting materials, self-repairing materials, intelligent bionic and metamaterials

- R&D and development of low-cost preparation and application technology for carbon nanotubes, metal surface grain nano-crystallization treatment technology, nano-powder industrialization technology, and nano-coating preparation technology
- Innovation and entrepreneurship services for renowned research institutes, professional incubators and testing, inspection and certification institutions related to new materials

### Preferential Policies

Implementation Opinions on Accelerating the Innovation and Development of the New Material Industry in Xiamen (*XM Econ. & Info. Ind. No. [2016] 452*)

Policies of Xiamen Torch Administrative Committee on Promoting the Development of Graphene and Other Advanced Carbon Materials Industry (*XM Hi-Tech Adm. No. [2018] 150*)

## Tourism

### Development Foundation

Xiamen is an "outstanding Chinese city of tourism", an "exemplary Chinese city of tourism and leisure", and the world's top romantic destination for leisure and tourism. Its holiday tourism popularity index and tourist satisfaction rate are among the highest in China. Moreover, Xiamen has consistently ranked among China's top 10 tourist destinations in terms of inbound tourist arrivals and foreign exchange earnings.

In addition, Xiamen is China's top port of transit for Taiwan-bound passengers. In Xiamen, there are over 100 scenic spots, 2,909 hotels and hostels with a total of 198,000 beds, 40 four- and five-star hotels and 438 travel agencies. In 2019, Xiamen recorded over 100 million domestic and international tourist arrivals, with tourism revenue totaling RMB 165.6 billion.

### Development Priorities

- Coastal tourism, strait tourism and other special products
- New forms of business, including cruise ships, yachts and RV camping

- Tourism distribution services, smart tourism and other supporting public facilities
- High-end hotel and leisure and holiday destination projects

### Preferential Policies

Implementation Opinions on Further Unleashing the Potential of Culture and Tourism Consumption (*XM Gov. Ofc. No. [2019] 101*)

Opinions on Supporting the Accelerating Development of International Air Routes in Xiamen (*XM Gov. Ofc. No. [2019] 14*)

Implementation Measures for the High-Level Talent Plans of the Tourism Industry in Xiamen (*XM Cit. & Trm. No. [2019] 202*)

Administrative Provisions on the City-Level Special Funds for Tourism Development in Xiamen (*XM Trm. Devt. Ofc. No. [2019] 43*)

Opinions on Supporting Further Promotion of the Development of Cruise Tourism in Xiamen (*XM Trm. Svc. No. [2018] 193*)

## MICE

### Development Foundation

In 2019, Xiamen hosted 236 exhibitions with floor space totaling 2.4 million square meters, as well as 9,978 meetings and conferences with 2.05 million participants. Total revenue reached RMB 45.1 billion, up 12% year-on-year. CIFIT, the Stone Exhibition and

the Buddhist Items & Crafts Fair are among the world's most significant events in their respective industries. The BRICS Summit and Straits Forum, held in Xiamen, proved to be great successes.

### Development Priorities

- Specialized exhibitions and international exhibitions
- High-level meetings and conferences
- Integrated service providers for MICE

### Preferential Policies

Opinions on Supporting Further Promotion of the Development of the MICE Industry in Xiamen (*XM MICE No. [2019] 58*)

Implementation Rules for Applying for Special Funds for the Development of the MICE Industry in Xiamen (*XM MICE No. [2019] 60*)

### Host Parks

Xiamen International Conference & Exhibition Center, Xiamen International Conference Center, Xiamen Fliport C&E Center, Xiamen East Sports Convention & Exhibition New Town (under construction)

## Cultural and Creative Industries

### Development Foundation

In Xiamen, the core content industries, such as digital content, new media, creative design, film and TV, have advanced by leaps and bounds; moreover, the agglomeration of high-end artwork businesses has increased significantly. Xiamen has also been included in China's first group of national cultural export bases

and has become the performant host city of the China Golden Rooster and Hundred Flowers Film Festival. Additionally, the world's third red-dot design museum has opened in Xiamen. In 2019, the revenue of Xiamen's cultural and creative industries totaled RMB 115 billion.

### Development Priorities

- The film and TV industry, including film and TV program creation, shooting, production, distribution and screening, as well as film and TV finance, film and TV-related MICE and other integrated services
- Digital content and new media, including creative production and integrated transmission of digital content, as well as new media
- Creative design, including industrial design, fashion design and other professional design
- High-end artworks, including artwork creation, artwork trading and integrated artwork services
- Culture, entertainment and leisure, including R&D of performing arts and entertainment programs, performance and integrated services

### Preferential Policies

Regulations on Further Promoting the Development of the Film and TV Industry in Xiamen (*XM No. [2019] 240*)

Implementation Measures for the Introduction and Cultivation of Talent for the Cultural Industry in Xiamen (*XM Comm. Plc. Assoc. No. [2019] 17*)

Policies and Supplementary Regulations on Promoting the Development of the Cultural Industry in Xiamen (*XM Gov. No. [2008] 398 and XM Gov. No. [2018] 91*)

Measures for Supporting the Development of Privately Owned Physical Bookstores (*XM Cit. Devt. Ofc. No. [2017] 23*)

Policies on the Construction of a National Cultural Export Base in the Xiamen Area of Fujian Pilot Free Trade Zone (*XM FT Comm. No. [2018] 120*)

Implementation Measures for Prospering the Commercial Performance Market in Xiamen (*XM Cit. Trm. No. [2019] 199*)

### Host Parks

National Culture-Science Fusion Demonstration Base, National Fujian-Taiwan Cultural Industry Experimental Park, Longshan Cultural & Creative Park, Huli Creative Industry Park, Jimei Film & TV Industry Park, Huaqiang Cultural Science Industry Park, Straits Architectural Design Cultural & Creative Park

## Modern Logistics

### Development Foundation

As a port-based national logistics hub, Xiamen is stepping up efforts to develop the city into a global hub for integrated transportation and a regional logistics center. The city is also building a national integrated pilot cross-border e-commerce zone and executing a demonstration project for urban green freight distribution. In 2019, Xiamen's modern logistics revenue totaled RMB 137 billion, and the Port of Xiamen handled

213.44 million tons of goods, ranking 7th nationally and 14th globally in terms of port container throughput. Moreover, Xiamen Airport is the nation's 6th largest airport for entry and exit, and its inbound and outbound cargo and mail volume is the 8th highest in China. Xiamen is a regional hub on China's southeastern coast for road and rail freight.

### Development Priorities

- Industry development platforms integrating procurement trade, logistics distribution, supply chain financial settlement and regional operation management headquarters
- International and domestic transshipment, procurement distribution, cross-border e-commerce logistics,

- international shipping services and other port logistics
- Intercity and urban-rural distribution of logistics related to consumer goods, cold chains, and medicine
- Joint logistics for manufacturing, trade, and finance
- Regional joint logistics for Taiwan, Southeast Asia, and central and western parts of China

### Preferential Policies

Opinions on Supporting the Development of the Modern Logistics Industry in Xiamen (*XM Gov. No. [2015] 314*)

Circular on the Measures for Supporting the Development of the Courier Delivery Industry in Xiamen (*XM Gov. Ofc. No. [2018] 67*)

## Financial Services

### Development Foundation

In 2019, Xiamen's financial service revenue totaled RMB 159.1 billion, with the cumulative added value reaching RMB 66 billion. Xiamen has been approved by the State Council to build a cross-strait regional financial service center and to pilot cross-strait currency exchange, trade settlement and clearance, market access for Taiwan-funded financial institutions, and cross-strait insurance cooperation. Moreover, Xiamen leads the nation in the volumes of TWD exchange and cross-strait and cross-border RMB settlement. At

present, Xiamen has 260 licensed financial institutions engaged in banking, securities and insurance; 17 corporate financial institutions; nearly 800 financial institutions engaged in micro-loans, financial leases, equity investment, financing guarantee and Internet finance; and 50 domestically listed companies. The city has created a diversified financial service system with wide-ranging functions and a high level of operating efficiency.

### Development Priorities

- Headquarters of financial institutions
- Professional financial companies
- Regional branches of financial institutions
- Specialized capital business institutions
- Business divisions and commercial institutions engaged in wealth finance, cross-strait and the "Belt and Road" finance, green finance, gold finance and

- other special financial business services
- Local financial institutions engaged in micro-loans, financial leases and equity investment
- Supporting financial service institutions
- Financial technology enterprises
- Gold industry enterprises

### Preferential Policies

Circular on Measures for Supporting the Development of the Financial Industry in Xiamen (*XM Gov. No. [2019] 280*)

Circular on Measures for Promoting the Development of the Equity Investment Industry in Xiamen (*XM Gov. No. [2019] 279*)

Implementation Measures for the Talent Plans of

the Financial Industry in Xiamen (*XM Gov. Ofc. No. [2019] 87*)

Opinions on Promoting the Development of Green Finance in the Capital Market and Insurance Industry of Xiamen (*XM Gov. Ofc. Nos. [2018] 21 & 22*)

Opinions on Promoting the IPOs of Xiamen Enterprises (*XM Gov. No. [2016] 362*)

## Biomedicine and Health

### Development Foundation

Xiame n is a regional pilot city for the agglomeration of biomedicine as a strategic emerging industry of the nation. In 2019, the output value of the city's biomedicine industry totaled RMB 67 billion. The biomedicine industry in Xiame n comprises bioproducts, chemical agents, medical devices and diagnostic reagents, traditional Chinese medicine and natural medicines, and functional food. Xiame n produced the world's first hepatitis E vaccine, China's first long-acting interferon "Peginterferon", the world's third and China's

first bivalent cervical cancer vaccine, the world's first nerve growth factor formally used clinically, and China's first multi-cancer gene mutation detection kit. Moreover, Xiame n is the world's largest producer and supplier of coenzyme Q10. Representative enterprises include Sinobioway Medicine, Double Medical, Amoytop Biotech, Innovax Biotech, InTech Products, Triplex Bioscience, Kingdomway, AmoyDx, LP Pharma, Ogawa and Surgaid Medical.

### Development Priorities

- R&D and industrialization of bioproducts, traditional Chinese medicine and natural medicines, functional foods, and formula foods for special medical purposes; R&D and application of cutting-edge technologies in biotherapy
- R&D and industrialization of medical devices, including diagnostic products, wearable medical and health equipment, and digital diagnosis and treatment equipment

- Biotechnology services and professional technical services
- Professional technical services for the creation, maintenance and mining of bioinformation systems and databases
- Pharmaceutical e-commerce platforms, logistics distribution centers and other pharmaceutical e-commerce services

### Preferential Policies

Measures for Accelerating the Development of the Biomedicine and Health Industry in Xiame n (*XM Gov. Ofc. No. [2018] 45*)

Opinions on Promoting the Development of the Biomedicine and Health Industry in Xiame n (*XM Gov.*

*Ofc. No. [2017] 209*)

## Modern Urban Agriculture

### Development Foundation

Xiame n's modern urban agriculture comprises planting, animal husbandry, agricultural and sideline products, food processing, rural tourism, and ecological leisure agriculture. The city's seed and seedling industry has developed rapidly, resulting in five major brands relating to vegetables, fruits, flowers, prawns, and materials for traditional Chinese medicine. In 2019, the processing of agricultural products continued to

thrive, and the 43 leading enterprises in agricultural industrialization reported combined sales revenue of RMB 51 billion. Leisure agriculture has become a new bright spot in Xiame n's development. Rural tourism and leisure agriculture receive more than 8 million tourists a year, and there are 11 "most beautiful" leisure villages on the "Beautiful China" program.

### Development Priorities

- Seeds and seedlings: vegetables, fruits, flowers, aquatic products, and materials for traditional Chinese medicine
- Planting and breeding: primarily production of main agricultural products
- Processing of agricultural products: manufacturing of canned beverages and processing of grain, edible oil, meat products, aquatic products, fruits, vegetables,

- and feeds
- Logistics and services relating to agricultural products: wholesale markets, sales terminals, cold chain logistics, and agricultural conventions and exhibitions
- Leisure agriculture and rural tourism: sightseeing and leisure agriculture, and rural tourism

### Preferential Policies

Five Measures for Supporting the Development of Smart Agriculture in Xiame n (*XM Agri. No. [2018] 8*)

Implementation Scheme for Supporting the Development of the Leading Enterprises in Agricultural

industrialization in Xiame n (*XM Agri. No. [2018] 226*)

Implementation Opinions on Promoting the Development of the Agricultural Product Processing Industry (*XM Gov. Ofc. No. [2018] 118*)

### Host Parks

## Headquarters Economy

### Development Priorities

Large-scale domestic and foreign enterprises are encouraged to set up national or regional headquarters in Xiamen. They are also encouraged to establish functional headquarters in Xiamen, such as centers for operations, R&D, management, settlement,

and purchasing and sales. Moreover, Xiamen is committed to fostering high-growth enterprises and attracting leading non-local enterprises to the city for development.

### Preferential Policies

#### Subsidies for Office Space

Newly introduced enterprises, once recognized as corporate headquarters or high-growth enterprises, are entitled to subsidies for office space rentals and purchases. Specifically, those renting office space for their own use will be given subsidies for three consecutive years according to actual rentals, with the cumulative amount capped at RMB 3 million, while those purchasing office space for their own use will be given subsidies at a certain percentage of the purchase price, with the cumulative amount capped at

RMB 5 million.

#### Rewards for Business Contributions

Newly introduced enterprises, once recognized as corporate headquarters or high-growth enterprises, are entitled to rewards for business contributions.

#### Talent Incentive Policy

Employees who pay more than RMB 80,000 in annual personal income tax are entitled to subsidies at a certain percentage of the locally retained portion of their personal income tax payments.

## New Economy

### Development Priorities

The focus is on the development of the digital economy, the platform economy and the intelligent economy, and proactive efforts are made to foster new forms of business and new models and to bring in and cultivate leading enterprises in the AI, Internet and blockchain industries. Moreover, substantial efforts are exerted to create a number of influential platform-

type trading and service centers, to cultivate a group of professional vertical e-commerce platforms with distinctive characteristics, to facilitate the establishment of supporting service institutions for the digital economy, and to build new national-level innovation facilities for the digital economy.

### Preferential Policies

Opinions on Promoting the High-Quality Development of the New Economy in Xiamen (*XM Comm. Rls. No. [2019] 24*)

Three-Year Action Plan for Accelerating the Development of the Platform Economy in Xiamen (*XM Gov. Ofc. No. [2019] 109*)

## KEY AREAS FOR INVESTMENT

### Spatial Layout of Key Areas for Investment

#### Jimei New Town

It has a plot area of 77.7 sq. km and is focused on developing software and information, the cultural and creative industries, tourism, mechanical equipment manufacturing, commerce, trade, etc.

##### Software and Information R&D Zone

It has a plot area of 10 sq. km and is focused on 5G, big data, AI, the Internet of Things and intelligent manufacturing.

##### Mechanical Equipment Manufacturing Zone

It has a plot area of 9.1 sq. km and is focused on automobile manufacturing and construction machinery.

#### Maluan Bay New Town

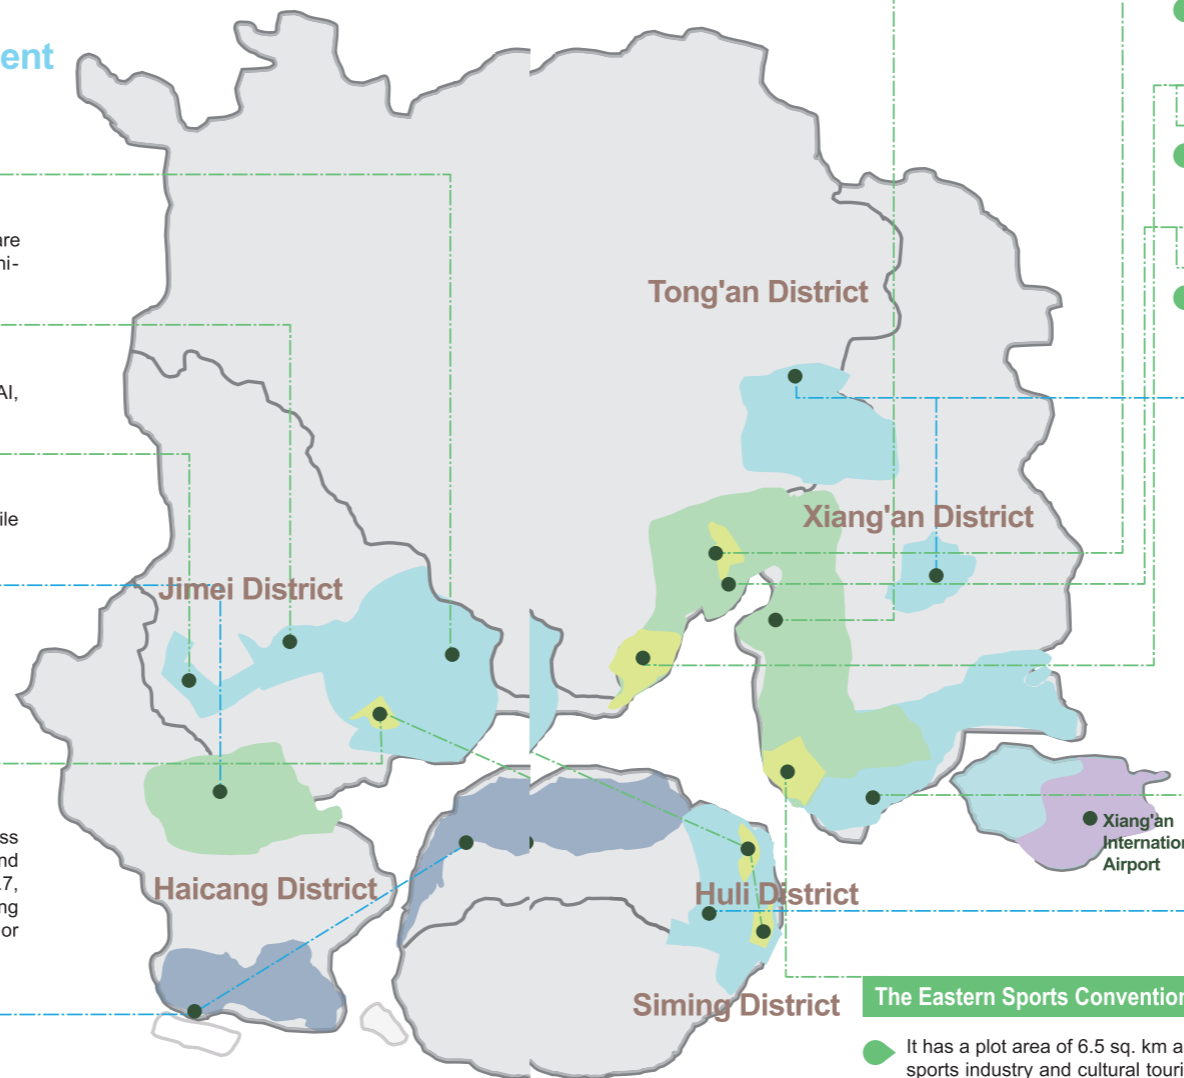

It has a plot area of 45.2 sq. km and is focused on developing the industries of life and health, modern logistics, commerce, cultural tourism, etc.

##### Headquarters Agglomeration Zone

Guanyinshan Business Operation Center, Wuyuan Bay Business Operation Center, Xinglin Bay Business Operation Center and North Hubin Road Super Headquarters Area have a plot area of 1.7, 1.4, 1.8 and 0.9 sq. km, respectively. They are focused on attracting large-scale domestic and foreign enterprises to set up national or regional headquarters or functional headquarters.

#### The Xiamen Area of the Pilot Free Trade Zone

It has a plot area of 43.8 sq. km and is focused on developing aviation services, international trade, shipping logistics, cross-border e-commerce, financial services, cultural trade and services, integrated circuit R&D and design, and high-end manufacturing industries.

#### The East Sea Rim New Town and Modern Service Industry Base

It has a plot area of 108 sq. km and is focused on developing the new economy, optoelectronic information manufacturing, tourism and vacationing, and high-end commerce.

##### Modern Service Industry Base (Bingzhou Area)

It has a plot area of 2.2 sq. km and is focused on developing software and information, cultural tourism, education and training, etc.

##### Modern Service Industry Base (Meifeng Area)

It has a plot area of 5.9 sq. km and is focused on developing high-tech R&D, finance, commerce, holiday hotels, etc.

##### Xiamen New Economy Industrial Park

It has a plot area of 170,000 sq. m. and is focused on developing new-generation IT industries such as 5G, AI and blockchain.

#### Tongxiang High-tech Industrial Base

(Including Tong'an and Xiang'an areas)

It has a plot area of 45.8 sq. km and is focused on developing the industries of electronic information, new energy, high-end equipment manufacturing, and new materials.

#### The New Airport Industrial Zone

It has a plot area of about 51 sq. km and is built around Xiang'an International Airport. The zone is focused on developing the airport's core industries and airport-related high-tech industries and modern service industries.

#### The Cross-Strait Financial Center

It has a plot area of 23 sq. km and is set to become a financial and commercial agglomeration area with the financial industry and the headquarters economy as its primary functions and with commercial and commercial office services as its secondary functions.

#### The Eastern Sports Convention and Exhibition New Town

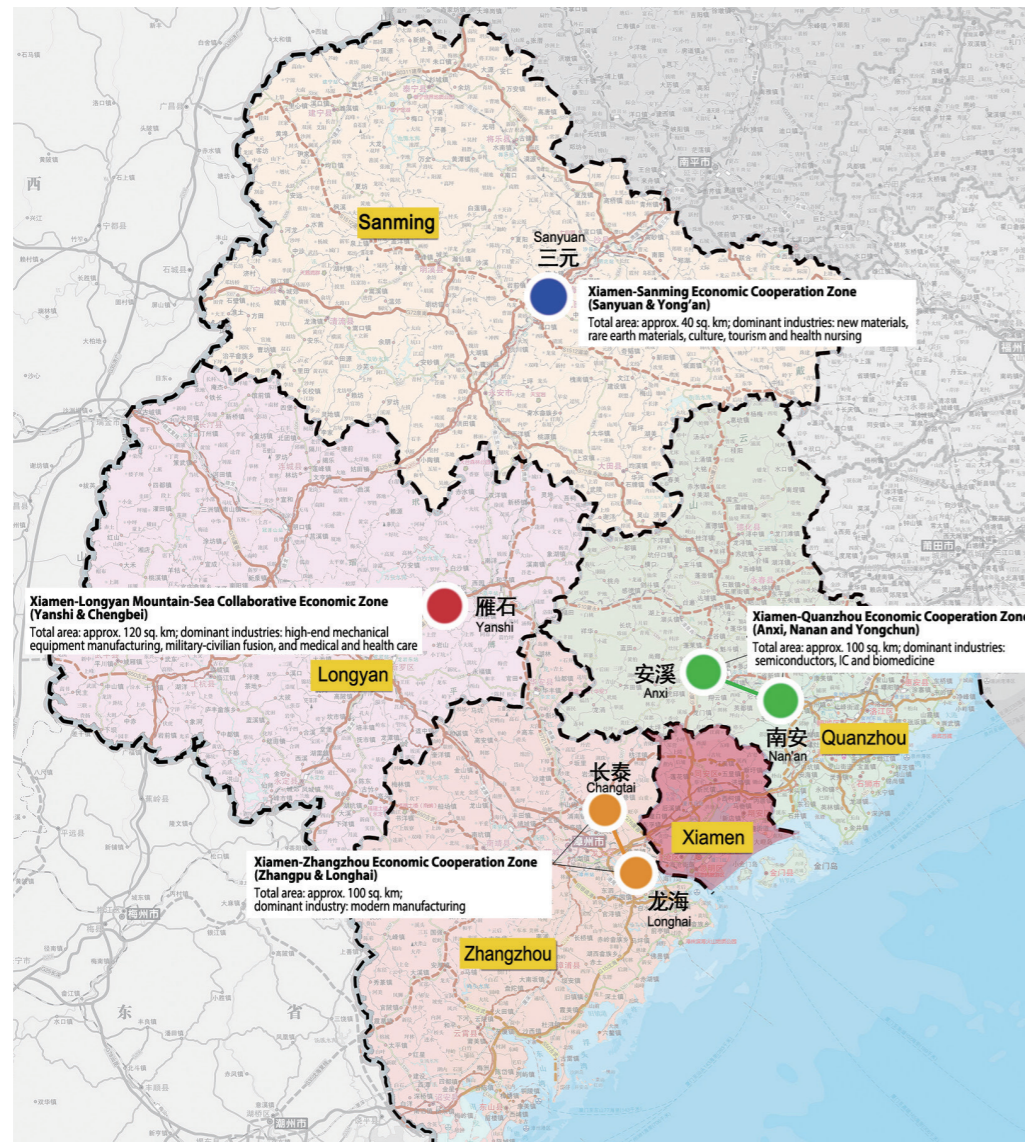

It has a plot area of 6.5 sq. km and is focused on developing MICE, the sports industry and cultural tourism. The new town is committed to the comprehensive development of coastal customs tourism, the cultural and creative industries, cross-border e-commerce, the headquarters economy, "great health", etc.

# LAND-USE CONTROL STANDARDS

# 04

## Spatial Layout of Collaborative Development in Southwest Fujian

Fujian provincial CPC committee and government have designated Xiamen as the leader in promoting the collaborative development of Xiamen, Zhangzhou, Quanzhou, Sanming and Longyan cities. Spearheading the regional development, Xiamen has set out to build an industrial coordination system centered on industrial chains and value chains. The system will be characterized by gradient development, sound division of labor, and mutually complementary advantages.

Spatial Layout of Collaborative Development in Southwest Fujian

## Land Use for Industrial Projects

### Investment Intensity and Land Output Rate

Industry	Investment Intensity (RMB millions/hectare)		Land Output Rate (RMB millions/hectare)	
	Control Value	Recommended Value	Control Value	Recommended Value
Manufacturing of computers, communication and other electronic equipment	53-64	68-83	105-160	135-208
Automobile manufacturing	42-54	55-70	86-150	112-190
Electrical machinery and equipment manufacturing	39-42	50.7-54	75-120	98-155
General equipment manufacturing	38-41	54-57	48-119	62-155
Special equipment manufacturing	38-42	50-55	61-70	79-98
Non-ferrous metal smelting and rolling	39-40	54-55	56-110	78-154
Non-metallic mineral products	39	54	67	93
Chemical fiber manufacturing	32-54	42-76	62-80	81-112
Rubber and plastic products	34	44	65	85
Pharmaceutical manufacturing	48-67	72-100	60-97	90-145
Tobacco products	38	57	100	150

Note: The investment intensity of fixed assets and the land output rate shall not be lower than the control value for the industry, and projects reaching the recommended value will be given priority in land supply.

# INVESTMENT ELEMENTS

# 05

## Floor Area Ratio and Average Land Tax Revenue

Industry	Floor Area Ratio (FAR)	Average Land Tax Revenue (RMB millions/hectare)
Manufacturing of computers, communication and other electronic equipment	2.0	6-6.75
Automobile manufacturing	1.2	6-7
Electrical machinery and equipment manufacturing	1.3	6.75-7
General equipment manufacturing	1.2	3-5.25
Special equipment manufacturing	1.2	5.25-5.3
Non-ferrous metal smelting and rolling	1.2	3.5-5.9
Non-metallic mineral products	1.2	3
Chemical fiber manufacturing	1.5	3-4.3
Rubber and plastic products	1.5	3
Pharmaceutical manufacturing	1.5	3.25-5.5
Tobacco products	1.6	45

## Land Use for Headquarters Projects

Xiamen-based corporate headquarters or headquarters-type organizations which commit to reaching the relevant standard of business contribution within certain years may apply for a land plot of a certain size as physical space for the construction of headquarters.

## Land Use for Logistics Projects

Building capacity control indicators for logistics warehouse projects: Floor Area Ratio (FAR)≥1.0; green space rate≤15%; building density or building coefficient≥50%.

(Land-use indicators for supporting logistics facilities at seaport, airport and railway freight yards are subject to separate regulations.)

## Human Resources

### Higher Education

Xiamen is home to 18 tertiary institutions, including Xiamen University, Huaqiao University, Jimei University and the Xiamen University of Technology. In early 2019, these institutions recruited 59,000 students, had a total enrollment of 174,300 students, and produced 41,300 graduates. In the 2019-2020 academic year, these institutions had a total of 21,300 postgraduate students.

### Salary Costs

In 2018, the average monthly salary of active employees in urban non-private organizations in Xiamen was RMB 7,097. The minimum monthly salary is RMB 1,800, which has been in effect since January 1, 2020.

(Source: Xiamen Bureau of Human Resources & Social Security)

### Vocational Education

There are 20 city-level secondary vocational schools with a total enrollment of 40,900 students, ensuring a multi-level skilled labor force for the city's industries.

### Social Insurance Costs

Rates of Contribution to Social Security and Housing Provident Fund in Xiamen for 2020

Rate of Contribution by Employer	
Basic Old-Age Insurance for Employees	12%
Medical Insurance	7% and 3%
Unemployment Insurance	0.5%
Childbirth Insurance	0.70%
Work-Related Injury Insurance	Approx. 0.41%
Housing Provident Fund	5%-12%

(Sources: Xiamen Bureau of Human Resources & Social Security and Xiamen Housing Provident Fund Center.)

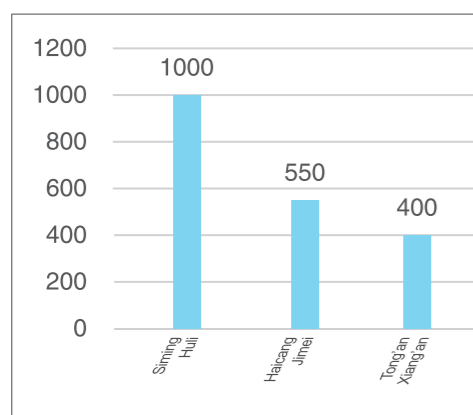

### Research Institutes

Type	Number
High-Tech Enterprises	1,928
"Little Giants" Tech Enterprises	852
Incubators for Tech Enterprises	38
National, Provincial and Municipal Key Labs	148
Engineering Technology Research Centers	128
Corporate Technology Centers	170
Corporate Postdoctoral Workstations	28

## Land Costs

## Energy Costs

### Power Supply

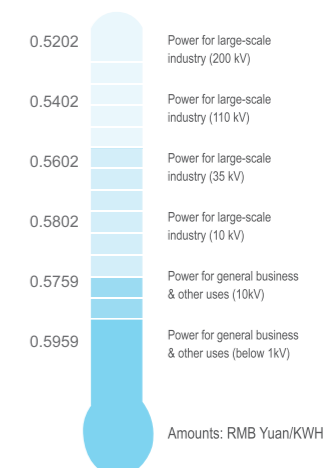

In 2019, the reliability rate of urban power supply in Xiamen stood at 99.9898%, the second highest among the nation's 52 major cities.

### Gas Supply

Xiamen has about 3,250 kilometers of gas pipelines and 592,000 pipeline gas users. Internationally renowned gas suppliers operate in Xiamen, with ample supply guaranteed.

### Water Supply

Xiamen currently has 15 waterworks, producing 1.98 million tons of water a day.

### Xiamen's Natural Gas Prices for 2020 (RMB/cubic meter) (effective as of Feb. 1, 2020)

Gas for Residential Use (this rate also applies to rental space whose renovation meets the required standards)	3.45-5.18
Gas for Non-Residential Use, including industrial and commercial uses	≤3.54
Gas for Nursing Homes and Welfare Institutions Approved by Civil Affairs Authorities	3.45
Gas for Schools	3.54

(Source: Xiamen Development and Reform Commission)

### Xiamen's Urban Water Prices for 2020 (including wastewater treatment fees) (RMB/ton)

		Total
Water for Civilian Use	Water for Residential Use	3.2-7.6
	Water for Non-Residential Use (water for administrative institutions, the military, social bodies, schools, medical institutions, social welfare and security services, public infrastructure services, and social services)	3.2
Water for Special Industries	Sauna, Carwash, Foot Bath, Pure Water	8.8
Water for Other Industries		4.1

## Commercial Facilities and Services

### Commercial Office Buildings

Xiamen offers investors a wide range of high-end commercial office building options for investors. Office space is available not only in the well-established business districts along Lujiang Avenue-Island Ring Road and on North and South Hubin Roads, but also in the emerging business districts around the Cross-Strait Financial Center, the East Sea Rim Bingzhou Modern Service Base, and Haicang Bay. By and large, office rental rates remain stable.

Administrative District	Location	Rental (RMB/sq. m/month)
Siming	North & South Hubin Roads	80-150
Siming	Lujiang Avenue-Island Ring Road	108-130
Siming & Huli	Cross-Strait Financial Center	70-135
Huli	Cross-Strait Trade Center	35-120
Jimei	Xinglin Bay Business Operation Center	35-80
Haicang	Taidi Haixi Center	50-70
Haicang	Xiamen Center	60-75
Haicang	Ronshine Ocean City	40-100
Tong'an	East Sea Rim Bingzhou Modern Service Industry Base	25-50

## Arbitration Institutions

Xiamen Arbitration Commission (XAC) is poised to become the regional arbitration center on the western coast of the Taiwan Strait. At present, XAC has 700-plus Chinese and international arbitrators with expertise in legal, economic, trade and other fields. For many years, XAC has ranked among the nation's top 10 in terms of the number of cases arbitrated. In the evaluation of the credibility of Chinese arbitration institutions, XAC topped the chart of the "local social influence index of arbitration institutions" and was rated as a "top 10 foreign-related arbitration service institutions".

## Housing Security

Xiamen has built a multi-level housing security system covering all citizens. By 2020, construction of 100,000 units of government-subsidized housing have begun, including 40,000 units of public rental housing and 60,000 units of government-subsidized rental housing and commercial housing. By April 2020, construction of 92,000 units of housing has started. The first group of government-subsidized metro community housing units is expected to be ready for occupation in September this year.

Map of Distribution of Government-Subsidized Housing in Xiamen

# 06 INCENTIVE POLICIES

For Xiamen, attracting investment and promoting development is a strategic choice to win the future. Since the city's Investment Promotion Convention in 2019, with a focus on attracting investment and ensuring high-quality development, Xiamen has enacted a series of policies to support enterprise development, which are highly competitive on many fronts and have been welcomed by entrepreneurs and investors. All Xiamen policies on investment and incentives for enterprises apply equally to all enterprises, whether they are Chinese or foreign, state-owned or privately-held, or whether they are well-established or newcomers. These policies and incentives are fusions of "enterprise innovation, market choice, and government support" and have become part of Xiamen's first-class business environment.

## Talent Policy

### Top-Notch Talents

Top-notch talents, such as Nobel Prize winners, academicians of the Chinese Academy of Sciences or Chinese Academy of Engineering, and world-class entrepreneurial teams, are eligible for project

subsidies of RMB 10 million to RMB 100 million on a case-by-case basis after being approved by the relevant departments.

### Leading Talents

● **High-Level Talents Recruited from Abroad:** They are eligible for a work and living stipends of RMB 1 million and be given priority in home purchases under the talent housing policy, and their children may pick a school of their choice.

● **Talents on a Municipal- or National-Level Talent Recruitment Program:** A stipend of up to RMB 2 million and startup financial support of up to RMB 10 million.

● **Leading Entrepreneurial Talents:** They are eligible for startup financial support of RMB 1 million to RMB 5 million and for subsidies of rents for 100-500 sq. m of physical space. Moreover, if the revenue of the enterprise's main business exceeds RMB 30 million, a reward equal to 1% of the actual revenue will be given.

● **Outstanding Young Talents:** They are eligible for a work and living stipend of up to RMB 1 million and be given priority in home purchases under the talent housing policy, and their children may pick a school of their choice.

● **Prominent Educators:** A relocation subsidy of up to RMB 1 million.

● **First-Class Medical Talents:** A relocation subsidy of up to RMB 1 million and a work stipend of up to RMB 6 million.

● **High-Level Financial Talents:** A reward of up to RMB 2 million.

● **Specially Appointed Taiwan Experts:** Work and living stipends with a cumulative amount of up to RMB 1.5 million yuan (to be paid on a yearly basis).

### Backbone Talents

● **"Triple-High" Enterprise Backbone Talents:** Those whose annual salary is 1.5 or more times higher than the average annual salary of employees in the previous year and who have worked in the enterprise for one full year and paid their social insurance contributions, are eligible for household registration in the place where the enterprise is a legal person, provided that they choose to renew their service contract with the enterprise. ("Triple-high" enterprises refer to high-tech, high-growth enterprises with high added value.)

● **Talents in High Demand in Key Industries:** Those whose annual salary amounts to RMB 500,000 or more are eligible for a remuneration stipend of RMB 150,000, while those whose annual salary amounts to RMB 300,000 or more are eligible for a remunerative stipend of RMB 100,000. Those who meet the team talent standards and whose annual salary amounts to RMB 200,000 or more are eligible for a remunerative stipend of RMB 100,000. Flexibly recruited talents whose service remuneration amounts to RMB 250,000 or more will be given a reward equal to 20% of the total amount of the personal remuneration (excluding dividends and stock option incentives) paid by the

enterprise according to the project agreement or service contract; the reward is capped at RMB 150,000.

● **Young Innovative & Entrepreneurial Talents:** A budgetary subsidy and living stipend of RMB 100,000 to RMB 400,000.

● **Specially Appointed Taiwan Professionals:** A subsidy equal to 25% of the annual salary paid by the employer will be given for five years if the professional's skills fit the development orientation of a key industry in Xiamen; the subsidy is capped at RMB 120,000 per year.

● **Taiwan Financial Talents:** Taiwan financial talents whose annual salary meets the relevant requirements and who serve as a mid-level or higher manager in a Xiamen-registered financial institution, large-scale financial holding company or financial research institute (think tank), are eligible for an annual stipend of RMB 80,000 for up to five years.

● **Social Work Professionals:** Those who are recognized as national-level and Xiamen leading talents for social work are eligible for a reward of RMB 100,000 and RMB 50,000, respectively.

LINK

#### Financial Talent Plan:

High-level financial talents are classified into three categories: industry-leading talents, senior elite talents, and young backbone talents. Current and newly recruited talents in these three categories are eligible for a reward of RMB 1 million/2 million, RMB 800,000/1,600,000 and RMB 400,000/800,000, respectively. They are also entitled to other talent policy benefits.

#### Talents Recruited & Cultivated for the Cultural Industries:

Talents in the cultural industry are classified into three categories: outstanding talents, distinctive talents and excellent talents. They are eligible for a work stipend of up to RMB 1 million, RMB 500,000 and RMB 200,000, respectively, in addition to a reward of up to RMB 300,000 for innovation achievements. They are also entitled to other talent policy benefits.

#### High-Level Talent Plan for the Tourism Industry:

High-level talents in the tourism industry are classified into two categories: leading talents and senior talents. They are eligible for work and living stipends and are also entitled to other talent policy benefits.

#### Flexibly Recruited High-Level Talents (Employers):

The employer is eligible for a talent recruitment subsidy equal to 20% of the total amount of remuneration, and each individual will receive up to RMB 150,000 per year. A flexible talent recruitment base with outstanding performance is eligible for a subsidy of up to RMB 200,000. Flexibly recruited talents will receive full reimbursements for their housing rents while working in Xiamen, at the highest local rent subsidy rates for high-level talents.

## ⦿ Fundamental Talents

- ⦿ Fresh university graduates who are employed or have started a business in Xiamen, and previous graduates with a bachelor's degree who are less than 45 years old or those with an associate college degree who are less than 35 years old and have consistently paid social insurance contributions in Xiamen for one to three years, are eligible for household registration in Xiamen.
- ⦿ Newly recruited graduates who have settled down in Xiamen are eligible for living stipends at the following rates: RMB 50,000 for doctoral degree holders, RMB 30,000 for master's degree holders, and RMB 20,000 for bachelor's degree holders from "Double First-Class" universities or from institutions placed among the top 200 in the three globally

recognized rankings of world universities.

- ⦿ Postdoctoral personnel at postdoctoral workstations operated by businesses and public institutions are eligible for an annual living stipend of RMB 100,000 for up to two years.
- ⦿ Newly recruited fresh graduates with honors which have studied with tuition exemption at non-Fujian normal universities affiliated with the Ministry of Education are eligible for a one-off stipend of up to RMB 200,000.
- ⦿ Young people from Taiwan who have won a prize in a major entrepreneurship competition at the municipal or higher level are eligible for a housing rent subsidy of RMB 2,000 per month for up to three years.

## ⦿ Highly Skilled Talents

Highly skilled talents whose skills are listed in Xiamen's catalogue of skills in high demand and who have worked for a year are eligible for a one-off stipend at the following rates: RMB 5,000 for technicians and RMB 10,000 for senior technicians. Validated technician training bases and skilled master's studios are eligible for a construction subsidy

of up to RMB 500,000, and highly skilled talents produced by these bases and studios are eligible for stipends at the rates for recruited highly skilled talents. Winners of the China Skills Contest and the National Awards for Technical Masters are eligible for a reward of RMB 300,000 and RMB 100,000, respectively.

## Housing Policy ▾

### ⦿ Housing Policy for High-Level Talents

High-level talents (Categories A+, A, B and C) enjoy substantially improved housing security, and they can now rent or purchase housing or receive free housing or supplemental housing. **First**, the categories of high-level talents have been expanded from A, B and C to A+, A, B and C, and the Organization Department of the CPC Xiamen Municipal Committee and the Xiamen Bureau of Human Resources and Social Security are in charge of filing and validation. **Second**, housing purchase subsidy rates have been substantially raised, and Categories A, B and C high-level talents are now given subsidies of RMB 2 million, RMB 1.6 million and RMB 1.3 million, respectively, which are paid over a 10-year period. **Third**, housing rent subsidy rates have been substantially raised, and

Categories A, B and C high-level talents are now given subsidies of RMB 10,000, RMB 8,000 and RMB 6,000 per month, respectively. **Fourth**, the controlling rates for the size of housing units that talents can purchase have been raised; Categories A, B and C high-level talents can purchase a housing unit of up to 150, 120 and 100 sq. m, respectively; and the individual may resell his or her housing unit in the market 10 years after moving in, provided that he or she has worked in Xiamen for at least 10 years, and an additional 5% of the capital gain from the resale will be awarded to the individual on an annual basis. **Fifth**, qualified high-level talents who have obtained talent housing can still purchase commercial housing under Xiamen's housing purchase policy.

### ⦿ Housing Security for Backbone Employees at "Triple-High" Enterprises

Backbone employees at "triple-high" enterprises are assured of housing security as they can rent or purchase housing. **First**, "new citizens" with no housing who are backbone employees at enterprises, newly employed graduates or regularly employed workers may apply, through their employers, for municipal-level public rental housing styled like shared dormitories, and the rents will be 30% off the market rent rates regardless of the individual's household registration, income level, marital status and age. **Second**, employees who are on the current lists in

the training databases of "triple-high" enterprises may purchase government-subsidized commercial housing through group allocations, and the purchase prices will be 45% of the assessed market prices. Qualified backbone employees at "triple-high" enterprises must have local household registration; there are no requirements about marital status, age or length of local household registration, but the individual must meet the requirements for income level and work experience (for example, at least one year of work experience for bachelor's degree holders).

Supporting Policy Benefits	Children of talents in the five categories are provided with an opportunity of picking a kindergarten or school of their choice	Talents in the National Talent (S&T) Plan Talents in a provincial-level talent plan Talents in the city's "Double Hundred" Plan, high-caliber talents of the city, and key talents of the city Talents in the city's "Vast Sea Embraces Rivers" Talent Plan and holders of the Golden Egret Talent Card High-level overseas-educated personnel validated by organization departments and human resources departments
	Talents in the following categories are eligible for personal income tax rewards	Leading entrepreneurial talents included in a municipal or higher-level talent plan: The locally retained portion of the personal income taxes paid by the individual over the past three years will be refunded in full as a reward. Holders of the Golden Egret Talent Card: The locally retained portion of the personal income taxes paid by the individual over the past three years will be refunded in full as a reward Leading technical talents who have worked for over a year at municipal-level corporate headquarters and who are included in the "Vast Sea Embraces Rivers" Talent Plan: 50% of the locally retained portion of the personal income taxes paid by the individual on his salaries over the past three years will be refunded as a reward Talents in all categories who work at "triple-high" enterprises conforming to the <i>Xiamen Guiding Catalogue of Key Industries for Development</i> and whose personal income tax on the annual salary amounts to RMB 100,000 or more: 50% of the locally retained portion of the personal income taxes paid by the individual on his salaries over the past five years will be refunded as a reward Professional talents who work in mid-level or higher technical or managerial positions at enterprises conforming to the <i>Xiamen Guiding Catalogue of Key Industries for Development</i> and whose annual salary (before tax) amounts to RMB 300,000 or more: 25% of the locally retained portion of the personal income taxes paid by the individual will be refunded as a reward. The individual may apply for this reward for three consecutive years starting from the first year of the implementation of the policy on applications

## Sci-Tech Innovation Policy

### Measures for Accelerating Innovation-Driven Development

- Leading enterprises in the industry receive support in spearheading major national science and technology projects and key R&D projects. They are eligible for a reward equal to 50% of the actual amount of state subsidies that they have received; the reward is capped at RMB 10 million.
- Encouraging the Construction of High-Standard Innovation Facilities: Provincial- and municipal-level key laboratories based in private enterprises are eligible for a subsidy of RMB 2 million, and those based at universities, research institutes, medical institutions or other legal-person entities are eligible for a subsidy of RMB 1 million. Provincial- and municipal-level key laboratories rated as excellent in performance evaluations are eligible for a reward of RMB 500,000 and RMB 200,000, respectively. Newly approved state key laboratories and state engineering research centers which are closely aligned with Xiamen's industry are eligible for a subsidy of RMB 10 million.
- Encouraging the Establishment of New-Style R&D Institutions: Validated new-style R&D institutions are eligible for a subsidy of RMB 1 million, while validated crucial R&D institutions are eligible for a subsidy of RMB 5 million. In addition, they may also apply for subsidies of up to RMB 50 million for R&D equipment purchases.
- Facilitating the Establishment of Sci-Tech Finance Systems: Enterprises are eligible for a sci-tech guaranteed loan of up to RMB 20 million, a sci-tech credit loan of up to RMB 5 million, and a sci-tech assurance and insurance loan of up to RMB 3 million. In addition, they can receive loan discount subsidies at a certain percentage.
- Rewards for Public Technology Service Platform Operations: Public technology service platforms which are primarily built by enterprises and operate according to market principles and which achieve an "excellent" rating in the annual performance evaluation are eligible for a reward equal to 10% of the annual technical service revenue. The reward is capped at RMB 500,000 per year.
- Rewards for Technology Transactions: For technology contracts signed by enterprises, after being validated and registered by the competent authority, the enterprises are eligible for a reward equal to 1% of the actual annual amount of transaction if the amount is no more than RMB 30 million, and they are eligible for a reward equal to 0.5% of the actual annual amount of transaction if the amount exceeds RMB 30 million. The reward for each enterprise is capped at RMB 1 million per year.

### Preferential Tax Policy for Tech Enterprises

- Preferential Treatment for High-Tech Enterprises: A reduced income tax rate of 15% applies. Enterprises registered in Siming or Huli are exempted from corporate income tax for the first two years, and pay corporate income tax based on 50% of the statutory tax rate for the three years thereafter. All districts offer a one-off subsidy of RMB 100,000 to RMB 250,000 to high-tech enterprises. National-level high-tech enterprises are eligible for a one-off reward of RMB 100,000.
- Pre-Tax Deduction for R&D Expenses: An enterprise may have an additional 75% deduction on top of the normal expense deduction in computing its tax liability if the expenses do not result in the creation of an intangible asset. If an intangible asset is formed, the R&D expenses that have been capitalized may be amortized before tax based on 175% of the actual cost of the created intangible asset.
- Technology Market (Contract) Tax Concessions: Validated and registered enterprise technology contracts are exempted from VAT. Income from a qualified technology transfer with a value of no more than RMB 5 million is exempted from income tax; if the value exceeds RMB 5 million, the excess portion is taxed at 50% of the statutory tax rate.
- Tax Concessions for Technologically Advanced Service Enterprises: A reduced income tax rate of 15% applies, and employee education expenses incurred may be deducted according to the regulations.
- Validation of High-Tech Achievement Commercialization Projects: 50% of the locally retained portion of the VAT already paid will be refunded for two years starting from the year of validation.

## Policy for "Triple-High" Enterprises

### Encouraging Enterprises to Increase Production and Efficiency

- High-growth enterprises receive sustained support. For "triple-high" enterprises whose local VAT and income tax payments in the current year exceed those in the previous year by RMB 1 million or more, if the excess portion is below RMB 10 million (based on the amount of tax payments in the previous year in which the conditions are met for the first time), a reward equal to 20% of the excess portion over the base amount will be offered; if the excess portion is RMB 10 million or more, a reward will be offered at the following progressive rates: 30% if the excess portion is below RMB 10 million, 40% if the excess portion is between RMB 10 million and RMB 50 million, and 50% if the excess portion is over RMB 50 million.
- Enterprises are encouraged to increase investment and expand production. A "triple-high" industrial enterprise undertaking technical renovation is eligible for a subsidy equal to 10% of its annual equipment expenses; the subsidy for a single project is capped at RMB 10 million. A "triple-high" industrial enterprise above the designated scale whose business revenue has increased over the previous year is eligible for a reward equal to 5% of its equipment expenses upon the completion of the technical renovation; the reward is capped at RMB 10 million.

### Enhancing Enterprises' R&D and Innovation Capabilities

- Facilitating Independent R&D Projects Undertaken by Enterprises: Qualified projects are eligible for a subsidy of up to RMB 20 million.
- Providing Greater Rewards for Technological Achievement Commercialization: Qualified enterprises are eligible for a subsidy equal to 60% of the locally retained portion of the VAT payment for two years starting from the year of the validation of technological achievement commercialization; the subsidy is capped at RMB 5 million per year.
- Supporting the Construction of Laboratories by Enterprises: Enterprises building a key laboratory are eligible for a one-off subsidy of RMB 2 million.
- Accelerating the Construction of Technological Innovation Centers: Enterprises building a municipal-level technological innovation center are eligible for a one-off subsidy of RMB 10 million.
- Encouraging the Establishment of New-Style R&D Institutions: Enterprises establishing a new-style R&D organization are eligible for an initial subsidy of RMB 1 million; if the R&D organization is validated as a crucial one, the subsidy will be increased to RMB 5 million, and an additional subsidy equal to 50% of the costs of the purchased instruments and equipment will be paid. For a five-year period, a new-style R&D organization and a crucial one may receive a subsidy of up to RMB 30 million and RMB 50 million, respectively.

### Raising the Level of Public Financial Support

- Encouraging Employee Stock Ownership: For personal income taxes withheld and paid by employee stock ownership platforms (limited partnerships), 80% of the locally retained portion of the personal income taxes paid by the partners will be refunded to the individual employee.
- Increasing Support for Fund Investments: For small and medium-sized "triple-high" enterprise in the category of equity investment institutions which have incurred losses in their initial phase of operations in Xiamen, a subsidy equal to 20% of the total amount of investment losses will be given.
- Encouraging the Establishment of Industry M&A Funds: Xiamen and its districts may acquire a minor stake in the M&A funds of the crucial industries.
- Launching Sci-Tech Credit Loan Products: Sci-tech loans of up to RMB 5 million are available.

## Foreign Investment Policy ▼

Foreign enterprises are encouraged to invest in Xiamen's key industries; rewards are offered to qualified enterprises whose annual value of the actually utilized foreign investment amounts to USD 10 million or more.

### ⦿ Rewards for Newly Established Foreign-Invested Enterprises

A one-off reward equal to 2% of the annual value of the actually utilized foreign investment will be given. The reward for a single enterprise is capped at RMB 20 million.

After the annual value of actually utilized foreign investment reaches USD 10 million, for two years

starting from the year when the enterprise makes its first VAT payment, the locally retained portion of the corporate income tax and VAT paid by the enterprise will be refunded in full as a reward, and for the three years thereafter, a 50% refund will be made.

### ⦿ Rewards for Foreign-Invested Enterprises' Capital Receipt

A one-off reward equal to 2% of the annual value of the actually utilized foreign investment will be given.

The reward for a single enterprise is capped at RMB 20 million per year.

### ⦿ Rewards for M&A Foreign Capital Receipt

Foreign-invested enterprises set up as a result of M&A are eligible for a reward equal to 2% of their annual value of the actually utilized foreign investment.

The reward for a single enterprise is capped at RMB 20 million per year.

### ⦿ Encouraging Foreign Investors to Continually Increase Investment in Xiamen

If a foreign investor directly invests the profits distributed by Chinese domestic resident enterprises into a project encouraged by the state, he or she will

be entitled to the deferred tax policy and exempted, for the time being, from the withholding income tax, provided that the prescribed conditions are met.

### ⦿ Talent Incentive Policy

An employee who pays more than RMB 80,000 in annual personal income tax is eligible for a subsidy equal to a certain percentage of the locally retained portion of his or her income tax. Specifically, the

percentage is set at 50%, 75% and 100% for an annual personal income tax of RMB 80,000, over RMB 80,000 but below RMB 250,000, and over RMB 250,000, respectively.

### ⦿ Other

Employees whose household registration is not in Xiamen and who pay RMB 50,000 or more in annual personal income tax may purchase commercial housing in Xiamen under the same terms for personnel with Xiamen household registration.

Employees who have worked for an enterprise for three full years and paid social insurance contributions are eligible for household registration in Xiamen if they choose to renew their service contracts with their current employers.

## Preferential Policy for Taiwan Enterprises ▼

### ⦿ Economic Exchanges and Cooperation

⦿ Taiwan construction enterprises which have been put on record in Xiamen may engage in construction activities in Xiamen within the approved scope of business.

⦿ Xiamen makes efforts to create a "one city, two sets of standards" framework; the advanced and sound parts of Taiwan's comparable standards may be incorporated into Xiamen's local standards.

### ⦿ Social and Cultural Exchanges and Cooperation

⦿ Taiwan enterprises and Taiwan compatriots may set up private non-corporate high-end nursing homes as sole proprietorships. Qualified Taiwan residents may also open clinics and medical laboratories as sole proprietorships.

⦿ Taiwan compatriots may be invited to act as special mediators or people's jurors. Efforts will be

made to explore the possibility of establishing a Taiwan-related legal aid center in Xiamen and to build a platform for accessing Taiwan law texts and a platform for displaying Taiwan-related procuratorate matters. Moreover, Xiamen and Taiwan law firms will be encouraged to launch joint operations under pilot programs.

## Education and Internships for Taiwan Compatriots in Xiamen

◎ Municipal and district education departments will arrange for the schooling of Taiwan students. District education bureaus will arrange for Taiwan preschoolers and children to attend the nearest kindergartens and primary schools. A certain number of places in certain municipal Grade 1 middle schools will be reserved for Taiwan students. Taiwan students who take the High School Entrance Examinations in Xiamen and whose score meets the year's minimum requirement for entrance to general high schools will apply for a place in a provincial-level Grade 1 high school in Xiamen; they will have parallel choices of school when their applications for admission are

considered.

◎ Scholarships will be set up for Taiwan students in Xiamen primary and secondary schools, and each Taiwan student studying in a Xiamen-based university is eligible for a one-off financial aid of RMB 5,000 upon enrollment.

◎ Based on the vocational internship stipend rates for graduates who are originally from Xiamen, Taiwan student interns will be given a monthly internship stipend and a monthly rent subsidy of RMB 500 (for a year). Taiwan students from abroad who have come to Xiamen for internships (longer than a month) will be given a one-off transportation subsidy of RMB 2,000.

## Innovation and Entrepreneurship by Taiwan Compatriots in Xiamen

◎ Each year, Xiamen offers 5,000 or more employment and internship opportunities to Taiwan compatriots. Taiwan compatriots receive employment subsidies from the municipal and district governments, and they may obtain employment permits according to their personal needs.

◎ Taiwanese teachers who have obtained a teaching credential in Taiwan can engage in music, PE or art teaching in kindergartens or general high schools in Xiamen by means of special appointment, purchase of services or short-term two-way exchanges. Xiamen seeks to attract Taiwan experts, scholars and

teachers to teach academic courses at universities and vocational colleges in the city; the academic achievements that these personnel have obtained in Taiwan may be incorporated into their work evaluation systems in Xiamen. For each Taiwan teacher recruited by a municipal public university, an annual subsidy of RMB 120,000 to RMB 150,000 will be paid from the city's public finance, and the salaries and benefits of Taiwan teachers recruited by primary and secondary schools and kindergartens are included in the public financial budget of the relevant level.

## Housing for Taiwan Compatriots in Xiamen

◎ Young people from Taiwan who are employed or have started a business in Xiamen may apply for public rental housing according to *the Detailed Implementation Rules for Young People from Taiwan to Apply for Municipal-Level Public Rental Housing*.

◎ By virtue of their Residence Permits of Taiwan Residents, Taiwan compatriots enjoy the same treatment as Xiamen residents in terms of house purchasing. Xiamen Airlines receives support from the city of Xiamen to introduce preferential measures to encourage and facilitate exchanges with Taiwan compatriots. Efforts are made to encourage Taiwan compatriots to use their Taiwan driver's licenses in Xiamen and to facilitate the swap of their Taiwan

driver's licenses for Mainland China driver's licenses.

◎ During their residence in Xiamen, Taiwan compatriots may individually partake in the basic endowment insurance scheme for employees or in the endowment insurance scheme for urban and rural residents in accordance with the same standards for Xiamen residents. Taiwan compatriots in Xiamen who partake in the unemployment insurance and work-related injury insurance schemes enjoy the same insurance treatment as Xiamen residents. Contributions paid by Taiwan compatriots to their personal housing provident fund and social security accounts may be withdrawn at one time by filing an application prior to departure from Mainland China.

## Policy for the Private Sector

### Encouraging Innovation

A private enterprise that successfully developed its first piece or set of crucial technical equipment is eligible for a subsidy of RMB 5 million for each

innovation item. A validated provincial- or municipal-level key laboratory is eligible for a one-off subsidy of RMB 2 million.

### Expanding Investment

Qualified municipal private undergraduate universities and vocational colleges are eligible for a one-off reward of RMB 1.2 million and RMB 800,000,

respectively. Class 3 Grade A and Class 3 Grade B private hospitals are eligible for a one-off subsidy of RMB 5 million and RMB 2.5 million, respectively.

### Reducing Tax Burden

For qualified small-scale low-profit enterprises whose annual taxable income does not exceed RMB 1 million, only 25% of the taxable income will be taxed and a corporate income tax rate of 20% will apply. For

those whose annual taxable income is between RMB 1 million and RMB 3 million, only 50% of the taxable income will be taxed and a cooperate income tax rate of 20% will apply.

## ⦿ Easing Financing Difficulty

⦿ In banking evaluations, a greater weight will be assigned to the credit business for private enterprises. Due diligence and responsibility exemption systems relating to financial services for private enterprises will be established and improved. A “white list” system for renewing loans without repaying the principal is

in place to ensure seamless connections between repayment of the principal and renewal of loans.

⦿ Support is offered to private enterprise in terms of direct financing through the capital market, and appropriate rewards will be given.

## ⦿ Facilitating Enterprises’ Efforts to Expand and Strengthen Their Business

⦿ For qualified new privately-owned industrial enterprises above the designated scale and privately-owned wholesale and retail enterprises above the designated revenue level, 50% of the increment over their local-level tax payment in the previous year will be rewarded to the enterprises for expanding their production; this reward will be given for three years. If any part of the after-tax profits distributed by a private enterprise to individuals has been converted into additional investment in the enterprise or reinvested to expand production, the locally retained portion of the personal income tax already paid on that part of the profits will be fully refunded.

⦿ Privately-owned industrial enterprises above the designated scale which undertake a technical

renovation project are eligible for a subsidy of up to RMB 10 million.

To provide institutional support for the development of the private sector, Xiamen has released the Implementation Opinions on Creating a Healthy Growth Environment for Entrepreneurs, Promoting the Entrepreneurial Spirit and Better Tapping the Role of Entrepreneurs (*XM. Comm. Rls. No. [2018] 29*), the Policy Measures for Further Reducing Enterprise Costs in Xiamen (*XM Gov. No. [2019] 10*), the Measures for Further Supporting SME Development in Xiamen (*XM Gov. No. [2019] 110*), and the Measures for Focusing on Enterprise Growth and Further Implementing the Business Environment Optimization Policy (*XM Gov. Ofc. No. [2019] 10*).

## Reward Policy for Investment Intermediaries

The practice of attracting investment through intermediaries is encouraged. Investment intermediaries who have successfully brought a project to Xiamen will be rewarded for project referrals.

### ⦿ Recipients of Rewards

Project information referrers and project promotion referrers

### ⦿ Eligibility Requirements

Eligible projects are new legal-person projects which have started production or operation in Xiamen (excluding additional investment projects, real estate projects and equity investment projects). Within four years of business registration (no later than the date for submitting applications for the reward), the project company must meet at least one of the following requirements:

⦿ Fixed-Asset Investment: The project company’s fixed-asset investment in Xiamen shall not be less than RMB 200 million.

⦿ Paid-in Registered Capital: For Chinese-funded project companies, the paid-in registered capital of the investor from outside of Xiamen shall not be less than RMB 200 million, while for foreign-funded project companies, the paid-in registered capital of the foreign investor shall not be less than USD 30 million.

⦿ Contribution to the Local Economy: The cumulative amount of the locally retained portion of the corporate income tax and VAT paid by the project company shall not be less than RMB 20 million.

### ⦿ Standards of Rewards

⦿ Rewards for Project Information Referrers: An investment-project information referrer will be given a one-off reward of RMB 100,000.

⦿ Rewards for Project Facilitation Referrers: An investment-project facilitation referrer will be given a reward equal to 0.5% of the base amount of the reward for the fixed-asset investment of the project, or a reward equal to 0.5% of the base amount of the reward for the paid-in capital, or a reward equal to 6%

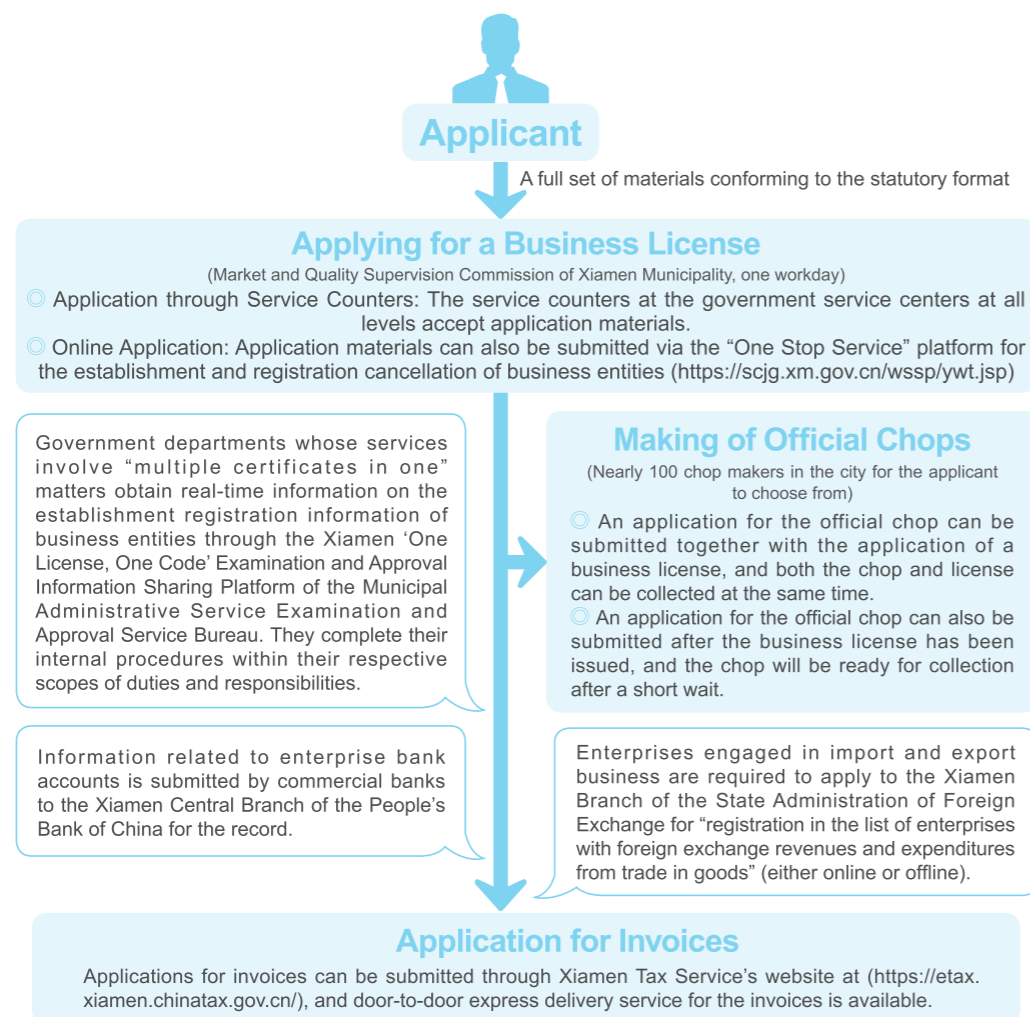

of the base amount of the reward for contribution to the local economy. For each referred project, the total amount of rewards is capped at RMB 3 million.

⦿ Additional Rewards for Key Projects: A project referrer will be given an additional reward of RMB 200,000 if he or she has successfully brought a company which has been included in the list of Fortune Global 500 or the list of China’s top 500 enterprises in the last three years.

3	Cross-Border E-Commerce Platform	B2B, B2C, bonded stock for cross-border imports (1210) and retail exports (9610) and other cross-border e-commerce platforms and enterprises	Xiamen Cross-Border E-Commerce Industrial Park Hugo Cross-Border E-Commerce Center Haicang Investment Cross-Border Connectivity Port Authority Cross-Border Complex Xiamen Airlines Cross-Border E-Commerce Supervision Center	Administrative Committee of Xiamen Area of Fujian Pilot Free Trade Zone Xiamen Xiangyu Free Trade Zone Development Co., Ltd.	Lin Hui 0592-6024973 Lin Yimei 13606079872
4	National Cultural Export Base	Enterprises in the fields of high-end works of art, creative design, film & TV performing arts, digital content & new media, press publishing & distribution, etc.	Blanc Bonded Platform for Works of Art Sea World Maritime Silk Road Artwork Center China Digital Group Cross-Strait Digital Economy Industrial Park Liyuan Culture Future Film World Lianfa Southeast Heaven & Earth	Administrative Committee of Xiamen Area of Fujian Pilot Free Trade Zone	Cai Qiang 0592-2621626
5	Imported Wine Platform	To bring in imported wine enterprises and supporting service enterprises, and to attract businesses related to world-famous spirits display and trading, wine-related professional training and recruitment, etc.	Xiamen Xiangyu Free Trade Zone Imported Wine Trading Center Xiamen Wine Trading Center Xiamen International Wine Trading Platform Southeast Red Wine Free Trade Direct Marketing Center	Administrative Committee of Xiamen Area of Fujian Pilot Free Trade Zone	Xiangyu: Guan Bin 0592-2630211 Haicang: Li Peishan 0592-6085989

No.	Project	Needs	Main Hosting Locations	Responsible Department	Contact
6	Gold Jewelry Platform	Enterprises in the fields of gold jewelry processing, testing, display, wholesale, trading, etc.; finance, retail, logistics, design, education and other forms of business	Gold Jewelry Industrial Park	Administrative Committee of Xiamen Area of Fujian Pilot Free Trade Zone	Chen Chen 0592-6892087
7	Electromechanical Equipment Platform	Mechanical and electrical industry-chain enterprises, as well as cooperative service enterprises, Taiwan mechanical and electrical industry	Xiamen High-End Equipment & Intelligent Manufacturing Exhibition & Trading Center Xiangyu Hardware, Mechanical & Electrical Logistics Distribution Center and other mechanical and electrical industrial parks	Administrative Committee of Xiamen Area of Fujian Pilot Free Trade Zone Xiangyu Logistics Park Development Center	Guan Bin 0592-2630211 Li Chenhui 18559210668
8	Bird's Nest Platform	Enterprises in the fields of bird's nest product R&D and processing, industrial standard formulation, safety inspection and testing, as well as industry associations, tonic derivative industry chains, etc.	Southeast Yandu Industrial Park	Administrative Committee of Xiamen Area of Fujian Pilot Free Trade Zone	Zhang Jin 0592-6892770
9	Xiamen International Aquatic Product Trading Platform	To bring in aquatic products importers and supporting special catering businesses	Xiamen Seashine Aquatic Product Group Co., Ltd.	Administrative Committee of Xiamen Area of Fujian Pilot Free Trade Zone	Dai Qinglin 0592-2616910
10	IC Mass Innovation & Entrepreneurship Platform of Xiamen Area of Fujian Pilot Free Trade Zone	To bring in top-notch international IC talents and teams in the fields such as AI-related IC R&D and design IP R&D, EDA development services, key laboratories, etc.	IC Wanxiang Base Cross-Strait IC Industry Base	Administrative Committee of Xiamen Area of Fujian Pilot Free Trade Zone	Xu Jianmin 0592-2621669
11	Xiamen Cross-Strait Innovation, Creativity & Entrepreneurship Base Platform	Enterprise intelligent services, cross-border e-commerce, biomedicine, creative design, new materials, intelligent hardware, drones, intelligent robots, Taiwan youth innovation and entrepreneurship incubation, etc.	Yunchuang Zhigu EPWK	Administrative Committee of Xiamen Area of Fujian Pilot Free Trade Zone	Cai Qiang 0592-2621676
12	China-Europe (Xiamen) Freight Train Service Platform	Sea-rail intermodal transport enterprises	Haicang Investment Group C&D	Administrative Committee of Xiamen Area of Fujian Pilot Free Trade Zone	Zhang Jin 0592-6892770
13	Collaborative Center of Biomedical Innovation & Entrepreneurship	To bring in innovative drugs, bioproducts, medical devices, biotherapy and other production and R&D enterprises	Xiamen Bio Bay	Xiamen Haicang Biotechnology Development Co., Ltd.	Li Ye 0592-6882993
14	East Sea Rim New Town & Modern Service Base	Enterprises in the fields of the new economy, optoelectronic information manufacturing, tourism and holidays, high-end commerce, etc.	Xiamen New Economy Industrial Park Bingzhou Modern Service Base (Yincheng Zhigu) Meifeng Modern Service Base (Meifeng Sci-Tech Innovation Park) Xiang'an Digital Industrial Park East Sea Rim Seaside Hotel Cluster	Headquarters of Xiamen East Sea Rim New Town	Qiu Guangqian 13959211766

No.	Project	Needs	Main Hosting Locations	Responsible Department	Contact
15	Jimei New Town Area	Enterprises in the fields of software and information, cultural and creative industries, tourism, mechanical equipment manufacturing, commerce, trade, etc.	Software Park Phase III Xinglin Bay Operation Center Horticulture Expo Garden Mechanical Industry Concentrated Zone	Xiamen Jimei New Town Area Headquarters	Lu Tao 13850085345
16	Maluan Bay New Town Area	To bring in enterprises in the fields of life and health, modern logistics, commerce and trade, culture, tourism, etc.	Maluan Bay New Town Area	Xiamen Maluan Bay New Town Headquarters	He Yan 18359294119
17	Tongxiang High-Tech Industrial Base	Electronic information manufacturing, new energy, high-end equipment manufacturing, new materials and other electronic information manufacturing industries; enterprises in the industries of software and IT, intelligent manufacturing of core equipment, intelligent manufacturing applications, new-energy batteries, advanced basic materials, cutting-edge new materials, IC, display panels, LED, microelectronics, etc.	Tongxiang High-Tech Industrial Base	Xiamen Tongxiang High-Tech Industrial Base Area Headquarters	Wang Lingyun 13599510958
18	Xiang'an Airport Industrial Zone	Enterprises in the fields of aircraft maintenance, airport area operations, large aircraft "passenger to cargo" remodeling, business aircraft maintenance and remodeling, etc.; Aviation bonded logistics, aircraft financial leasing, bonded aviation materials warehousing and transport, bonded trade display and other business; supporting development of bonded processing, ground warehousing, cold chain transport, financial leasing, flight training, integrated foreign trade services and other high-end value-added services; Key industries such as airborne equipment, aircraft parts manufacturing, general aviation R&D and manufacturing, with coverage of aircraft sales and after-sales service, aviation training, science and technology research and development and other aviation business	Aircraft Maintenance & Modification Area Airport Comprehensive Bonded Area Aviation Industrial Park	Xiamen Airport Area Headquarters	Zhang Si 18900220263
19	Cross-Strait Financial Center Area	To bring in large corporate groups and leading financial enterprises in the financial field, as well as supporting commerce, commercial office services, etc.	Cross-Strait Regional Financial Service Center	Xiamen Cross-Strait Financial Center Area Headquarters	Su Xunpeng 15960219039
20	East Sports Convention & Exhibition New Town Area	Enterprises and platforms engaged in conventions and exhibitions, the sports industry, cultural tourism, comprehensive development of conventions and exhibitions, convention and exhibition tourism, the sports economy and media industry, sports product design, physical education and training, sports health, cultural performing arts, etc.	New Sports Center New Convention & Exhibition Center Liuwudian Ancient Street	Xiamen East Sports Convention & Exhibition New Town Area Headquarters	Lin Shuxin 15705920720

## Sci-Tech R&D

No.	Project	Needs	Main Hosting Locations	Responsible Department	Contact
1	Xiamen Center, National Technology Transfer Center of Xi'an Jiaotong University	To establish R&D centers for great health, new materials and AI, and to build a high-level center for the commercialization of scientific and technological achievements and technology transfer	XJU Hard Science Incubation Platform	Xiamen XJU Hard Science Technology Research Institute Co., Ltd.	Xie Hongnian 13328771793
2	Industrial Intelligence Research Institute	To build industry-oriented R&D and technology transfer centers for the R&D of intelligent software and hardware equipment	Industrial Intelligent R&D and Technology Commercialization Center	Xiamen Institute of Data Intelligence, CASS Institute of Computing Technology	Wang Guoli 13055513918
3	Intelligent Medical Research Institute	To carry out strategic cooperation with hospitals and to use the AI technology to develop auxiliary diagnosis methods and systems for diseases	Joint Laboratory of Intelligent Medicine	Xiamen Institute of Data Intelligence, CASS Institute of Computing Technology	Wang Guoli 13055513918
4	Institute of Emergency Management	To establish a joint laboratory and develop an emergency management system based on big data technology	Intelligent Emergency Research Center	Xiamen Institute of Data Intelligence, CASS Institute of Computing Technology	Wang Guoli 13055513918
5	Quantitative Finance Research Institute	To apply the big data technology to solve technical problems in the financial field, and to realize the industrialization of related technologies	Quantitative Financial Research Center	Xiamen Institute of Data Intelligence, CASS Institute of Computing Technology	Wang Guoli 13055513918
6	Autonomous Controllable Collaboration Center	To establish a test center and an operation and maintenance support center for autonomous controllable software and hardware products	Autonomous Controllable Collaboration Supporting Center	Xiamen Institute of Data Intelligence, CASS Institute of Computing Technology	Wang Guoli 13055513918
7	Financial Technology R&D Center	To focus on the R&D of alternative financial data platforms, intelligent investment systems, intelligent risk control systems, and quantitative trading systems	Fuchun Big Data Industry Base	Xiamen Institute of Data Intelligence, CASS Institute of Computing Technology	Kong Xinchuan 13858069798
8	New-Style Memory RRAM Technology and Applications Based on 28nm Advanced Process	To develop a new-style memory RRAM technology, including process, testing and Macro IP, based on the mass-produced 28nm advanced process	Xiamen Semiconductor Industry Technology R&D Co., Ltd.	Xiamen Semiconductor Industry Technology R&D Co., Ltd.	Yu Rong 13459011086
9	Xiamen "One Thing, One Code" (Nuclear Energy Anti-Counterfeiting Technology)	To seek the cooperation of enterprises with anti-counterfeiting needs	Cross-Strait Tsinghua Research Institute	Engineering Physics Industry Promotion Center	Li Xiangyin 18859229696

No.	Project	Needs	Main Hosting Locations	Responsible Department	Contact
10	Nuclear Drug "Milk Station"	To seek a partner to build GMP workshops for the production of isotope drugs, with the project investment expected to be RMB 60-70 million	Cross-Strait Tsinghua Research Institute	Engineering Physics Industry Promotion Center	Li Xiangyin 18859229696
11	Advanced Intelligent Innovation Research Institute	Solution and system R&D equipment for the additive material manufacturing industry, health and medical care, as well as hardware sci-tech R&D equipment for new materials and intelligent-manufacturing production-line design integration; laboratory, small-scale test, pilot test, system assembly debugging and other R&D facilities Emerging-industry incubation project locations and funding based on additive manufacturing technology, etc.	Jimei District (Anren Industrial Park) or Torch High-Tech Zone	Advanced Manufacturing Industry Empowerment Center	Wu Xinqian 13611161987
12	Integrated Building Components & Intelligent Management system	To seek cooperation in capital investment or marketing	Cross-Strait Tsinghua Research Institute	Smart Construction Center	Zhang Qianying 13600976672
13	TAN Industrial Communication Technology	To seek cooperation in capital investment or marketing, and to apply the TAN technology system of improved Ethernet in the fields of ships, energy, smart factories, high-speed rail, self-driving cars, etc.	Cross-Strait Tsinghua Research Institute	Industrial Communication & Security Research Center	Zhang Qianying 13600976672
14	Nano-Mineral-Based Organic Pollution & Heavy Metal Pollution Treatment Agents	To seek equity cooperation for the production of a series of new nano-mineral-based environmental materials	Cross-Strait Tsinghua Research Institute	Laboratory of New Environmental Materials & Refined Processes	Ma Long 13860118584
15	Compound Water Purifiers & Sediment Improvers for Foul Water Bodies	To seek equity cooperation for the development of new environmental materials and the promotion of new environmental protection technologies	Cross-Strait Tsinghua Research Institute	Laboratory of New Environmental Materials & Refined Processes	Ma Long 13860118584
16	Xiamen Jiahong New Material Technology Co., Ltd.	R&D and application of natural renewable agricultural waste polymers for the production and supply of modified bio-based low-carbon plastics, and to build innovative facilities and closed-loop business models for end-to-end recycling of waste plastics for harmless renewable energy applications	Cross-Strait Tsinghua Research Institute	Cross-Strait Tsinghua Research Institute	Fu Yunru 18350785885
17	Fujian Academician Expert Workstation	To seek industry-academia collaboration for the industrialization and commercialization of biomedical research achievements with universities; to attract capital investment for industrial production of existing biomedical achievements	Triplex International Biosciences (China) Co., Ltd. Industry-Academia Collaboration Platform	Xiamen National Health Industry International Innovation Park Co., Ltd.	Dai Jinkui 13055518399

No.	Project	Needs	Main Hosting Locations	Responsible Department	Contact	Remarks
18	List of Scientific Research Partners of Xiamen University	To seek cooperation by means of technical services, technology transfer, entrusted development, cooperative R&D, joint platform development, capital investment, etc., based on the list of potential industrialized projects in the fields of flat panel display, computers and communication equipment, semiconductors and IC, software and information services, high-end equipment manufacturing, new materials, energy conservation and environmental protection, biomedicine and health, agriculture and marine production, cultural and creative industries, etc.	Xiamen University	Xiamen University	Zhou Lincheng 18850567714	 <p>Scan the code for more lists of university projects</p>
19	List of Scientific Research Partners of Huaqiao University	To promote industry-academia collaboration by means of joint development, project entrustment, technology transfer, capital investment, joint platform development, etc. based on the list of potential industrialization projects in the fields of high-end equipment manufacturing, electronic information, civil engineering and construction, new materials and energy conservation and environmental protection, biology and new medicine.	Huaqiao University	Huaqiao University	Lin Liang 0592-167618	
20	List of Scientific Research Partners of Jimei University	To seek scientific research partners in third-generation semiconductor materials, marine corrosion and intelligent protective materials, navigation and other marine transportation systems; smart and intelligent management of container ports; modern marine fishery products such as new fishery drugs, agricultural organic fertilizers and insect-resistant drugs; intelligent manufacturing machinery such as ultra-low head hydraulic turbines, wave-energy compressed air energy storage devices, etc.; and modern information management systems, such as high-speed image information hidden-detection platforms, program host livestreaming intelligent auxiliary systems, etc.	Jimei University	Jimei University	Liang Xiaohui 0592-180464	
21	List of Scientific Research Partners of Xiamen University of Technology	To promote industry-academia enterprise integration by means of joint technology development, project entrustment, technology transfer, capital investment, joint R&D platform development and joint industrial college development on the list of potential marketization and industrialization projects in the fields of intelligent manufacturing, big-data Internet of Things, vehicle engineering, civil engineering and construction, environmental engineering, alternative energy, new materials, etc.	Xiamen University of Technology	Xiamen University of Technology	Zhou Renguo 13950002861	
22	List of Scientific Research Partners of Chengyi College of Jimei University	To utilize cutting-edge technologies such as cloud computing, big data and AI to achieve the integrated development of the industry or enterprise digital economy and real economy, and help key industries complete transformation and upgrading, so as to enhance industrial competitiveness and promote the development of industrial agglomeration, with the focus on the development of three platforms: Jimei Digital platform for Key Industries, Jimei Digital Culture & Tourism Platform, and the Digital Education Platform of Jimei Culture & Education Park	Chengyi College of Jimei University	Chengyi College of Jimei University	Zheng Hua 13806091677	

## Social & Public Services

No.	Project	Needs	Main Hosting Locations	Responsible Department	Contact
1	International High-Quality Private School (Park)	Higher-education institutions, primary and secondary schools, kindergartens and training institutions	Huli District	Huli District Bureau of Commerce	You Kun 0592-5725397
2	Collaboration with Overseas Higher-Education Institutions	To build research institutes, applied disciplines, etc. in collaboration with overseas higher-education institutions	Huli District	Huli District Bureau of Commerce	You Kun 0592-5725397
3	High-End Medical Institutions	High-end general hospitals and high-level specialized hospitals such as obstetrics and gynecology hospitals, brain hospitals, traditional Chinese medicine hospitals, tumor hospitals, psychiatric hospitals, dental hospitals, etc.	Huli District	Huli District Bureau of Commerce	Liu Shengwan 0592-5726039
4	Specialized Medical Service Institutions	The highest-end and most professional third-party medical laboratory in the country	ITG Adicon	Xiamen ITG Holding	Wu Jingquan 13599088890
5	High-End Specialized Medical Institutions	To bring in private capital to build high-end specialized hospitals	Tong'an Industrial Concentration Zone	Tong'an District of Health	Lin Shaojian 13850070603
6	Construction of Ice Sports Venues	To bring in private capital to build ice sports venues in Xiamen and a standard ice rink with a floor area of 1,830 sq. m to facilitate the development of curling, figure skating, ice hockey, speed skating and other sports	Renovating old factories, warehouses and businesses, or making use of planned land construction projects	Xiamen Municipal Bureau of Sports	Yan Yitong 0592-5114853
7	New Sports Center	Operating institutions or enterprises in the development of sports and health industries which will plan and execute popular sports events, cultural activities and content production	East Sports Convention & Exhibition New Town	East Sports Convention & Exhibition New Town Area Headquarters	Lin Shuxin 15705920720
8	Sports Events	Organizations with experience and resources in the operation and management of comprehensive and specialized sports events	East Sports Convention & Exhibition New Town	East Sports Convention & Exhibition New Town Area Headquarters	Lin Shuxin 15705920720
9	High-Level Sports Events of Recognized Brands	Operation and management of the F1H2O UIM World Championship, the World Rowing Beach Sprint and the World Cup Dragon Boat Tournament, and organizing of the Equestrian Obstacle Invitational Tournament and other sports events	Huli District	Huli District Bureau of Commerce	Chen Fan 0592-5725397
10	Construction & Operation of Sports Venues	Construction and operation of sports parks and venues	Huli District	Huli District Bureau of Commerce	Chen Fan 0592-5725397
11	High-Quality Eldercare Projects	High-quality eldercare projects combining medicine with nursing care	Huli District	Huli District Bureau of Civil Affairs	Lu Yu 0592-5722502
12	Specialized Home-Based Community Eldercare Services	Day care centers for the elderly, home-based community eldercare service stations and rural "happiness homes"	Huli District	Huli District Bureau of Commerce	Chen Fan 0592-5725397
13	High-end Eldercare Projects	To bring in high-end health nursing and eldercare community projects	Eldercare Land Plot in Jiuxi Area, Xiang'an District	Xiang'an District Bureau of Commerce	Li Ling 0592-7889008
14	Construction & Operation of Parking Lots	Construction and operation of the parking lot of Xiamen Cultural & Creative Exhibition Center Phase II	Xiamen Cultural & Creative Exhibition Center Phase II	Siming Bureau of Development & Reform	Lin Wenquan 18250700790
15	Comprehensive Development of Bus Terminal Land Plots	To bring in private capital to comprehensively develop 50 bus terminal land plots each with an area of 5,000 to 30,000 sq. m on the basis of public transport functions, such as public parking lots, logistics, energy (charging piles), etc.	Bus Terminal Land Plots in Xiamen	Xiamen Public Transport Group	Wu Jiaming 13606901970
16	Construction of Intelligent Bus Shelters	To bring in private capital to build intelligent bus shelters	Bus Shelters in Xiamen	Xiamen Public Transport Group	Wu Jiaming 13606901970
17	Construction of Charging Piles for Bus Terminals	Collaborative construction of charging piles for bus terminals	Bus Terminals	Xiamen Public Transport Group	Huang Linzhong 13806091991
