

## Key Investment Promotion Projects for Strategic Emerging Industries

S/N	Territory	Carrier	Field	Specific Requirements	Contact Institution	Contact Person and Contact Information
1	Fuzhou	Kemen Park, Lianjiang County	New chemical materials, high-end new energy materials	We plan to introduce projects for high-end new energy and new materials, new chemical materials, electric power and energy, modern port logistics, and green textile.	Investment Promotion Office of Lianjiang	Zeng Zhaoxu Tel.: 13489966187
2	Fuzhou	Luoyuan Economic Development Zone	Alternative fuel vehicle materials	We plan to introduce upstream and downstream related material industries of alternative fuel vehicles.	Management Committee of Luoyuan Economic Development Zone	Yao Zhonghui Tel.: 13705090123  Zhang Bin Tel.: 13599052181
3	Xiamen	Haicang District Jimei District Xiamen Torch Development Zone for High Technology Industries	New functional materials	1. We plan to introduce projects for new functional materials such as new metal functional materials, rare earth functional materials, new membrane materials, functional glass and new optical materials, semiconductor materials, new energy materials, and functional polymer materials.  2. We plan to introduce and develop projects for application materials such as environmentally friendly rubber and plastic materials with special functions and high performance, membrane materials, composite fibers, bio-based materials, graphene, and fullerene.	Xiamen Bureau of Industry and Information Technology	Liu Yuxiang Tel.: 0592-2896743
4	Xiamen	Haicang Dongfu New Industrial Park	Manufacturing or processing of new non-ferrous metal alloy materials	We plan to introduce manufacturing or processing projects for new non-ferrous alloy materials such as cemented carbide, aluminum foil processing, and film.	Haicang District	Chen Ziyang Tel.: 0592-6887793
5	Xiamen	Tong'an Area of Tongxiang High-tech City	New materials	We plan to introduce projects in high-tech industries such as new materials, new energy, energy conservation and environmental protection, and high-end equipment manufacturing.	Industry and Information Technology Bureau of Tong'an	Hong Yaohui Tel.: 0592-7558668
6	Xiamen	Professional Incubator for Graphene New Materials in Xiamen High-tech Innovation Center Graphene New Material Incubation Base of Torch High-Tech Park	Advanced carbon materials such as graphene	We plan to introduce enterprises engaged in the development, application, and industrialization of advanced carbon materials represented by graphene, and we can provide carrier support for business incubation and industrialization.	Xiamen High-tech Innovation Center	Gan Yi Tel.: 15280400696

7	Xiamen	Tongxiang High-tech City Xiang'an Industrial Park	Cutting-edge new materials	We plan to introduce chain supplement projects for additive manufacturing materials, shape-memory alloys, self-repairing materials, intelligent bionic and metamaterials, liquid metals, new low-temperature superconducting materials, and low-cost high-temperature superconducting materials.	Bureau of Industry and Information Technology of Xiang'an District	Chen Huipeng Tel.: 18259120495
8	Xiamen	Xiamen Marine High-tech Industrial Park	New marine materials	We plan to introduce enterprises engaged in new marine anti-corrosion materials, environmentally friendly marine anti-fouling materials, marine equipment metal materials, high-performance composite materials, and self-	Xiamen Municipal Bureau of Ocean Development	Huang Jianhong Tel.: 0592-2853908
9	Zhangzhou	Fujian Longhai Economic Development Zone ("Zero Carbon" Industrial Park)	New energy	We plan to introduce cascade utilization of LNG cold energy projects such as carbon dioxide dry ice production, ice cube production, data center, special cold storage and cold chain logistics for food and medicine, quick-freezing and freeze-dried food processing, and frozen bakery in carbon capture power plants.	Management Committee of Fujian Longhai Economic Development Zone	Guo Yongjie Tel.: 18020669889; 0596-6868108 E-mail: Lhsntw2016@163.com
10	Zhangzhou	Dongshan Economic and Technological Development Zone (Lingang Economic Industrial Park)	New energy and new materials	We will focus on introducing projects related to the extended upstream and downstream photovoltaic industry chain, including inverters, encapsulants, and frames. In addition, we will also introduce projects related to new building glass, smart furniture glass, automotive glass, household appliance glass, nanomaterials, superconductive materials, and more.	Dongshan Economic and Technological Development Zone	Lin Xiuping Tel.: 1365606629; 0596-5885007 E-mail: kfqjfj@163.com
11	Zhangzhou	China-Philippines Demonstration Park for Economic and Trade Innovation and Development Zhao'an Area (New Materials and Supporting Industrial Park)	New materials and new energy	We plan to introduce enterprises engaged in new energy vehicles and accessories, green building materials such as photovoltaic power generation, and new composite materials.	Zhao'an Industrial Park	Xu Hongchen Tel.: 15750820835; 0596-3302608 E-mail: zagyyq2021@163.com
12	Zhangzhou	Changshan Overseas Chinese Economic Development Zone (New Energy and New Materials Park)	New materials and new energy	The New Energy and New Materials Park is planned to be set up in the north of Changshan, with a net industrial land area of about 737,500 m <sup>2</sup> . We plan to introduce enterprises engaged in new materials and new energy.	Economic Development Bureau of Changshan Overseas Chinese Economic Development Zone	Shi Baofu Tel.: 13605099676; 0596-8626218 E-mail: ckfqfgj@sina.com
13	Zhangzhou	Wan'an Industrial Park	Intelligent manufacturing, new energy and materials	We plan to introduce leading projects with high industrial relevance and strong driving forces; projects with high scientific and technological content and high added value; midstream and downstream overflowed projects of Gulei's petrochemical industry.	Wan'an Industrial Park, Zhangpu County	Lin Xueyan Tel.: 15059601490; 0596-3106206 E-mail: 1532846819@qq.com

14	Quanzhou	Quanzhou Economic and Technological Development Zone (Automobile Industry and Trade Industrial Park)	Alternative fuel vehicles	We will focus on introducing enterprises engaged in parts and components of alternative fuel vehicles and hybrid vehicles.	Investment Promotion Service Center of Quanzhou Economic and Technological Development Zone	Chen Zeping Tel.: 0595-22351128
15	Quanzhou	Quangang Petrochemical Industrial Park	Hydrogen energy	We plan to utilize the hydrogen production advantages of by-products from petroleum and chemical enterprises in Quangang Petrochemical Industrial Park, strive to promote hydrogen purification technology and preparation, and develop industrial by-product gas-to-hydrogen projects, R&D projects in key links such as hydrogen fuel cells and key components, hydrogen fuel cell power modules and power system integration, projects in core materials such as fuel cell proton exchange membranes and carbon paper, and projects in the manufacturing of components such as membrane electrodes and metal bipolar	Quangang District Development and Reform Bureau	Lin Meifeng Tel.: 0595-87978796
16	Quanzhou	Quanzhou Taiwanese Investment Zone (New Material Industrial Park)	Graphene applications	Allocating a land area of 333,333.33 m <sup>2</sup> for the Park, we plan to introduce application-oriented industries using graphene as raw materials, including enterprises specializing in four fields: supercapacitors, touch screens, structural materials, and sensors.	Quanzhou Taiwanese Investment Zone Investment Promotion Bureau Co., Ltd.	Yang Liqun Tel.: 13306091616
17	Sanming	Qingliu Economic Development Zone (Chengnan Small and Micro Innovation and	New processing and manufacturing industry	We plan to introduce projects in manufacturing and processing industries such as electronic light, intelligent manufacturing, new energy, new materials, and the light textile footwear industry.	Management Committee of Qingliu Economic Development Zone	Zhang Liangcai Tel.: 13859412143
18	Sanming	Yong'an Graphite and Graphene Industrial Park	Microcrystalline graphite industry	We plan to introduce production lines for the industrial application of microcrystalline graphite.	Management Committee of Yong'an Graphite and Graphene Industrial Park	Huang Yuqi Tel.: 18250573168
19	Sanming	Ninghua Overseas Chinese Economic Development Zone (Intelligent Manufacturing Industrial Park)	Organic silicone products, major appliances, electronic manufacturing of optical-electronic components	We plan to introduce upstream and downstream industrial chain projects for organic silicone new materials, and manufacturing and R&D projects for refrigeration, air conditioning equipment, small electrical appliances, optical and electronic components, and electromechanical component equipment.	Management Committee of Ninghua Overseas Chinese Economic Development Zone	Lin Zhong Tel.: 13507553589

20	Sanming	Datian Economic Development Zone (Luofeng New Material Industrial Park)	Graphite (graphene) industry	We plan to introduce enterprises engaged in the graphite (graphene) industry, new material industry, and new energy industry, and build an industrial cluster integrating graphite purification, high-purity graphite application, and graphene research and development.	Datian Economic Development Zone	Chi Shangliang Tel.: 18759720092
21	Putian	Xiangang Industrial Park, Xianyou County	Silicon steel and lithium battery	1. The high-end silicon steel ultra-thin belt industrial chain project is planned to be developed in Xianhua Area, Xianyou County, with a planned land area of 333,333.33 m <sup>2</sup> , and we plan to attract leading enterprises in the silicon steel industry and introduce projects such as high-end silicon steel production lines, non-oriented silicon steel ultra-thin strip production lines, oriented silicon steel ultra-thin strip production lines, and silicon steel ultra-thin strip production lines.  2. On the basis of the three major lithium battery materials industry projects introduced in 2022, we plan to attract upstream enterprises specializing in R&D and production of raw materials such as lithium battery separators, electrolytes, and composite copper foil.	Industry and Information Technology Bureau of Xianyou County  Investment Promotion Office of Xianyou County	Huang Qinglong Tel.: 13959558860  Liu Shengjiang Tel.: 13950728183
22	Putian	Taihu Industrial Park, Chengxiang District (New Functional Material Industrial Park)	New functional material industry	The Taihu Industrial Park is planned to cover a land area of 333,333.33 m <sup>2</sup> . Relying on the project Huayuan Industry and Trade Phase II, we will focus on the R&D and application of high-performance fiber and composite materials, facilitate the development of supporting industries such as equipment manufacturing, and set up relevant incubation and scientific research platforms. We plan to attract Chinese and international textile material production	Chengxiang District	Chen Jiyang Tel.: 13706089318
23	Putian	Shimena Industrial Park, Xiuyu District (New Coating City)	New functional material industry	Relying on the project Sankeshu High-tech Material Comprehensive Industrial Park, we plan to mainly introduce high-performance and environment-friendly products and manufactures of water-based coatings, special coatings, and new functional coating materials to the Park.	Investment Promotion Service Center of Xiuyu District	Yang Zhi Tel.: 13959513242
24	Putian	Lingang Industrial Park, Xiuyu District (LNG Cold Energy Green Industrial Park)	New energy industry	Taking advantage of the LNG cold energy cascade resource advantages of Fujian LNG Base (the cold energy contains about 1.26 billion kWh of electricity), we plan to invest, construct, and operate the Putian Green Demonstration Industrial Park for Comprehensive Utilization of LNG Cold Energy in the plots near the Putian LNG Terminal and other plots. We will build refrigeration stations to provide cold energy for existing users in need in surrounding areas. Besides, we plan to introduce enterprises in cold energy utilization-related industries, including cold storage and cold chains in the full-temperature zone, food processing, industrial ice/dry ice, cold energy utilization	Investment Promotion Service Center of Xiuyu District	Yang Zhi Tel.: 13959513242

25	Longyan	Shanghang County Industrial Park (Gold-Copper New Material Recycling Industrial Park)	New materials	Shanghang County Industrial Park is focused on the construction of production bases for gold-copper alloy, composite copper films, composite aluminum films, new energy material, PCB high-end circuit boards, and related supporting industrial projects. We will strive to build it into a comprehensive park integrating the whole industrial chain of raw materials, intensive processing,	Gold and Copper Industrial Development Center of Shanghang County	Lai Changcai Tel.: 0597-3138226
26	Longyan	Fujian Shanghang New Materials Science and Technology Innovation Valley	New materials	Fujian Shanghang New Materials Science and Technology Innovation Valley is planned to cover an area of 8,000,000 m <sup>2</sup> . We will adopt a new development and construction mechanism featuring highly socialized operation, deep integration of park development with capital, and high integration of industry and city, striving to build three new material industrial chains with an output value of more than RMB 100 billion, including fluorine-containing materials, lithium battery materials, and electronic chemical materials, within 5-10 years. Besides, we plan to introduce related industrial projects.	Preparatory Office of Shanghang New Materials Science and Technology Innovation Valley	Chen Donghua Tel.: 13507532694
27	Longyan	Wuping Industrial Park	Production of high-power lithium-ion batteries and	We plan to introduce production and R&D projects for high-power lithium-ion batteries and electrodes and build a production base with an annual output of 50 million energy-storage lithium-ion batteries (1.5 billion Ah) and 100 million	Development and Reform Bureau of Wuping County	Pan Jiangbin Tel.: 13959077408
28	Longyan	Shanghang County Industrial Park	Production of integrated circuits and LED packaging bond alloy wires	Shanghang County Industrial Park is planned to cover an area of about 26,666.67 m <sup>2</sup> . We plan to introduce an automatic production line with an annual output of 6 tons of bonding alloy wires, as well as processing and production lines of high-tech materials such as bonding silver wires, bonding copper alloy wires, and industrial electronic target materials into the park.	Gold and Copper Industrial Development Center of Shanghang County	Lai Changcai Tel.: 0597-3138226
29	Longyan	Fujian (Longyan) Rare Earth Industrial Park	New materials	We plan to introduce rare earth permanent magnet materials, rare earth catalytic materials, rare earth alloy materials, rare earth crystal materials, and other intensive processing and application industrial chains, as well as various downstream product projects such as air conditioning compression motors, new energy vehicle motors, rare earth micro-special motors, wind turbines, core materials of high-end medical PET-CT machines, rare earth polishing materials, rare earth automobile exhaust purifiers, and chemical catalysts for oil refining.	Changting County Rare Earth Industry Service Center	Lin Lishan Tel.: 13605902608
30	Longyan	Longyan High-tech Industrial Development Zone (Power Battery Industrial Park)	New energy	We plan to introduce new energy battery manufacturing enterprises and industrial projects such as battery cathode materials, conductive agents, PACK, and separators.	Bureau of Commerce of Longyan National Hi-tech Industrial Development Zone	Chen Wenyan Tel.: 13599615251
31	Ningde	Dongqiao Economic and Technological Development Zone	New energy materials and intelligent equipment	We plan to introduce production projects of copper foils for high-end lithium batteries, circuit copper foils, and aluminum foils for lithium-ion power batteries. Besides, we plan to introduce manufacturing enterprises for lithium battery intelligent equipment.	Commerce Bureau of Dongqiao	Liu Danhua Tel.: 15159333332; 0593-2317111 E-mail:

32	Ningde	Long'an Chemical Industry Park, Fuding	New energy materials	Long'an Chemical Industry Park covers an area of about 4,066,666.67 m <sup>2</sup> . We plan to introduce R&D and manufacturers of new energy-supporting facilities, battery cathode materials, anode materials, electrolytes, battery slurry, special surfactants, cosmetics, high-performance adhesives, environmentally friendly water treatment agents, electronic chemicals, as well as polyurethane and	Management Committee of Fuding Industrial Park	Cai Qiwen Tel.: 18150220810; 0593-7871656 Email: 705198961@qq.com
33	Ningde	Shuangyue Industrial Park, Fuding  Qianqi Industrial Park, Fuding	Power battery	Shuangyue Industrial Park is planned to cover a land area of 66,666.67 m <sup>2</sup> , and we plan to introduce an annual production capacity of 450 million sets of lithium battery structural parts. Qianqi Industrial Park will add a land area of 441,333.33 m <sup>2</sup> , and we plan to introduce an annual production capacity of sodium-ion power batteries of more than 25 GWh.	Fuding Bureau of Industry and Information Technology	Cao Renxiao Tel.: 139859690690; 0593-7853498 Email: fdjmtzgj@166.com
34	Ningde	Dajia, Hetang, and Shanyang Industrial Concentration Areas, Gutian County	New energy and new stainless steel materials	We will mainly introduce lithium battery new energy industry chain projects, SAIC passenger vehicle supporting projects, stainless steel new material projects, copper material projects, and projects of other advanced manufacturing, equipment manufacturing, local specialty processing, and so on.	Bureau of Commerce of Gutian County	Li Yueqiu Tel.: 13599833963; 0593-3682331 E-mail: gtxwjm@163.com
35	Ningde	Dongqiao Economic and Technological Development Zone (Fujian Jixin PV Storage, Charging and Inspection Cloud Data Center)	New energy and energy storage	We plan to introduce development and production projects of off-grid wind/solar/energy storage/hydrogen fuel cell interconnection systems, and projects of emerging energy technology research and development, energy storage technology services, new material technology research and development, intelligent micro-grid energy data collection, distribution, and operation management services for light storage, charging, and inspection.	Commerce Bureau of Dongqiao	Liu Danhua Tel.: 15159333332 ; 0593-2317111 E-mail: 826627683@qq.com
36	Fuzhou	Fujian Precision Medicine Industry Innovation Center	Biomedicine industry	We plan to introduce biomedicine and its upstream and downstream industrial chain projects.	Fuzhou Fuyin Precision Medicine Development Co., Ltd.	Zhou Yuyu Tel.: 13705937008
37	Xiamen	Xiamen Biomedical Port	Innovative drugs and high-end preparations	We plan to introduce projects of new vaccines, recombinant protein drugs, bio-macromolecular drugs, innovative small-molecular drugs, small nucleic acid drugs, targeted drugs, and improved new drugs; platforms of innovative chemical drug design, screening, and verification; platforms of new drug-loaded and complex sustained-release control technology.	Haicang District Xiamen Haicang Biotechnology Development Co., Ltd.	Ma Yiyi Tel.: 0592-6887763  Zheng Rongwei Tel.: 0592-6881507

38	Xiamen	Xiamen Biomedical Port Xiang'an Digital Economy Industrial Park Xiang'an General Manufacturing Plant	Medical equipment	We plan to introduce in vitro diagnostic reagents and core raw materials for immunodiagnosis, molecular diagnosis, and POCT, as well as a new generation of fully automated diagnostic equipment; various artificial organs, joints, and other high-end implant interventional products; high-end medical devices such as high-end medical imaging equipment, tumor treatment equipment, respiratory equipment, and consumables; telemedicine equipment and smart healthcare systems.	Haicang District  Xiamen Haicang Biotechnology Development Co., Ltd.  Bureau of Industry and Information Technology of Xiang'an District	Ma Yiyi Tel.: 0592-6887763  Lin Zhiqin Tel.: 0592-6881887  Chen Lixuan Tel.: 13950064316
39	Xiamen	Xiamen Biomedical Port	Cutting-edge biomedical technology and industrial services	1. We plan to introduce cutting-edge biotherapy technology projects such as biomedical artificial intelligence, bioinformatics big data fusion analysis technology, cutting-edge interdisciplinary technology in life sciences, oncolytic virus therapy, tumor immunotherapy, cell therapy, and gene therapy.  2. We plan to introduce new business formats such as drug marketing authorization holders (MAHs) and medical device registration holders.  3. We plan to introduce third-party inspection and testing institutions such as professional medical inspection laboratories, medical imaging diagnosis centers, and pathological diagnosis centers; pharmaceutical services such as modern pharmaceutical e-commerce, chain operation, and logistics distribution; basic platforms and enterprises for industrial application such as Biomedical Contract Research Organizations (CROs), Contract Manufacture Organizations (CMOs), and Contract Development and Manufacturing Organizations (CDMOs).	Haicang District  Xiamen Haicang Biotechnology Development Co., Ltd.	Ma Yiyi Tel.: 0592-6887763  Chen Xin Tel.: 0592-6881507  Zheng Rongwei Tel.: 0592-6881507  Huang Ju Tel.: 0592-6881507
40	Xiamen	Xiang'an Digital Economy Industrial Park Xiang'an General Manufacturing Plant	Innovative drugs	We plan to introduce biological drugs such as vaccines, recombinant proteins, polypeptide drugs, and antibody drugs, as well as high-end modern biotechnology projects.	Bureau of Industry and Information Technology of Xiang'an District	Chen Lixuan Tel.: 13950064316

41	Xiamen	Triplex International Biosciences (TIB) Park Xiamen Airport Industrial Park	Innovative drug R&D, high-end medical devices	We plan to introduce R&D projects of biological drugs and innovative drugs, as well as industrial projects such as high-end medical devices, health equipment, and health management services.	Industry and Information Technology Bureau of Tong'an District  Bureau of Industry and Information Technology of Xiang'an District	Lin Yuchan Tel.: 0592-7558669  Chen Huipeng Tel.: 18259120495
42	Xiamen	Tongxiang High-tech City Torch (Xiang'an) Industrial Zone Torch Huli Park	Medical equipment	We plan to introduce R&D and production projects of domestic alternative medical imaging.	Xiamen High-tech Innovation Center	Huang Kai Tel.: 17602188737
43	Xiamen	Xiang'an Digital Economy Industrial Park	Cutting-edge biotherapy technology and medical intelligent equipment	We plan to introduce cutting-edge biotherapy technology projects such as cell therapy, biomedical artificial intelligence, and immunotherapy, as well as industrial projects such as intelligent health and medical equipment, medical information services and safety, precision medicine, health services, and biomedicine.	Xiang'an District Bureau of Industry and Information Technology  Bureau of Commerce of Xiang'an District	Chen Huipeng Tel.: 18259120495  Chen Lixuan Tel.: 13950119513
44	Zhangzhou	Zhangzhou High-tech Industrial Development Zone (Big Health Industry Demonstration Park)	Biomedical industry	We plan to attract enterprises engaged in pharmaceutical manufacturing, healthy food, and health equipment.	Investment Promotion Service Center of Zhangzhou High-tech Industrial Development Zone	Chen Guidong Tel.: 18960000367; 0596-6635110 E-mail: gxqzsfwzx@163.com
45	Quanzhou	Yongchun Biomedical Industrial Park	Biomedicine	With a total land area of some 266,666.67 m <sup>2</sup> and a first-phase land area of 133,333.33 m <sup>2</sup> , we plan to introduce incubation projects and production enterprises in the fields of medical device manufacturing, deep processing of traditional Chinese medicinal materials, health care food production, and so on.	Management Committee of Yongchun County Industrial Park	Liu Wencai Tel.: 18150996789

46	Quanzhou	Quanzhou Economic and Technological Development Zone (Biomedical Industry Base)	Biomedicine	With Zhengtai Road as the axis, we plan a pharmaceutical industry base with a focus on the R&D and production of chemical drugs as well as the improvement in the ability to produce or compete in the production of generic drugs. We also plan to foster a joint pharmaceutical marketing group and build regional pharmaceutical brands.	Investment Promotion Service Center of Quanzhou Economic and Technological Development Zone	Chen Zeping Tel.: 0595-22351128
47	Sanming	Sanming High-tech Industrial Development Zone	Digital healthcare	We plan to introduce high-end digital medical devices, medical new materials, and other R&D and production projects.	Management Committee of Sanming High-tech Development	Chen Liuyan Tel.: 13960515779
48	Putian	Hushi Industrial Park, Xiuyu District (Medical and Health Care Device Base)	Life and health industries	With a land area of 200,000-333,333.33 m <sup>2</sup> , we plan to introduce enterprises specializing in high-end medical devices, medical and health care services, and marine biotechnology based on Xinchang's polypeptide park, the equipment industrial complex of Fujian Hongbao Pharmaceutical Equipment Logistics Park Co., Ltd., the logistics park of Baihe Cold Chain, the senior care project of Bai Shou Kang, and the project of Putian Bopu Medical Equipment Trading	Investment Promotion Service Center of Xiuyu District	Yang Zhi Tel.: 13959513242
49	Putian	Putian Meizhou Bay North Bank Economic Development Zone	Life and health industries	<p>1. For the high-end medical specialty base project of Mazu Health City, a specialized hospital cluster and a medical technology sharing center have been completed with a floor area of some 170,666.67 m<sup>2</sup> and a total construction area of some 500,000 m<sup>2</sup>, which can meet the settlement of at least six hospitals and accommodate 2,400 beds.</p> <p>We plan to introduce specialized hospitals with clinical characteristics; high-end medical technology departments; cutting-edge diagnosis and treatment technology centers; hospitals, senior care and health management institutions; medical examination and testing institutions; high-level medical specialty teams.</p> <p>2. With a total planned area of 5,000,000 m<sup>2</sup> for the biomedicine and medical device production base project of the Cross-strait Biological Technology Park, we plan to introduce natural drug, APIs, and preparation production and sales projects; medical device production, management, and sales industrial projects; health care product and formulated food for special medical use, cosmetics, and</p>	North Bank Management Committee	Chen Zhihong Tel.: 18705941699  Xu Jianxing Tel.: 13859813603

50	Nanping	Jintang Industrial Park, Shaowu	Biomedical industry	We plan to introduce listed companies for the processing of finished drugs and preparations and new production projects of APIs, finished drugs, and preparations, to form an industry-wide chain covering raw materials, intermediates, APIs, preparations, and sales. We also aim to introduce and develop fluorine-containing drugs, first generics, and drugs in short supply in	Shaowu Investment Promotion Service Center	Chen Xueliang Tel.: 18005098418
51	Nanping	Pucheng County Industrial Park (Putan Biological Industrial Park)	Biology and new pharmacology	1. Relying on the existing biological fermentation facilities and production capacity of Putan Biomedical Park, we plan to introduce application enterprises engaging in biological fermentation, biological extraction, and others. 2. Relying on the chemical industrial concentration area, we plan to introduce enterprises engaging in pharmaceutical APIs, intermediates, preparations, and chemical innovative drugs.	Bureau of Commerce of Pucheng County	Huang Liubin Tel.: 18965399393
52	Longyan	Longyan National Hi-tech Industrial Development Zone (New Pharmaceutical Industrial Park)	Biomedicine	We plan to introduce new pharmaceutical industrial projects focused on biomedicine and high-end medical devices.	Bureau of Commerce of Longyan National Hi-tech Industrial Development Zone	Chen Wenyan Tel.: 13599615251
53	Longyan	Minxi (Changting) Medical Device Industry Park	Medical equipment	We plan to introduce high-end medical device production projects.	Medical Device Industry Office of Changting County	Qiu Weiliang Tel.: 13338371020
54	Ningde	Dongqiao Economic and Technological Development Zone (Biomedical Science Park)	Biomedicine	We plan to introduce drug R&D, innovation, and manufacturing, intelligent extraction, preparation production, process control, and examination and testing systems.	Commerce Bureau of Dongqiao	Liu Danhua Tel.: 15159333332; 0593-2317111 E-mail:
55	Ningde	Zherong Economic Development Zone (Biomedicine Recycling Economy Industrial Park)	Biomedicine	We plan to introduce production projects related to biomedicine, healthcare food, and the recycling industry.	Management Committee of Zherong Economic Development Zone	You Wangbin Tel.: 13599192968; 0593-8351209 Email:
56	Ningde	Zherong High-tech Industrial Park (East Fujian Pharmaceutical City)	Biomedicine	We plan to build medical standard workshops with a land area of 133,333.33 m <sup>2</sup> ; introduce R&D and production projects for chemical drugs, Chinese patent drugs, medical devices, and healthcare food.	Management Committee of Zherong High-tech Industrial Park	You Wangbin Tel.: 13599192968; 0593-8351209 Email:

57	Pingtán	Pingtán Comprehensive Experimental Zone	Marine biotechnology high-tech industry	With a planned land area of some 133,333.33 m <sup>2</sup> , we plan to build 160,000 m <sup>2</sup> of production workshops and build an international leading R&D and innovation center according to GMP standards; delve into the application of stem cells in the cosmetics industry; build automatic unattended finished product warehouses and world-class raw material production workshops.	Marine Industry Department of the Investment Promotion Committee of Pingtán Comprehensive Experimental Zone	Zeng Huafeng Tel.: 13023827450
58	Pingtán	Pingtán Strait Medical and Health Industrial Park	Biomedicine	Investment attraction for park carriers. For the project, 104,700-m <sup>2</sup> standardized workshops, warehouses, and trading centers have been built. We plan to introduce enterprises engaging in biomedical R&D, production, and sales, and carry out such business as the import-export trade of drugs, medical devices, and cosmetics, headquarters logistics, bonded R&D, and bonded processing.	Department of Logistics Trade, Investment Promotion Committee, Pingtán Comprehensive Experimental Zone	Chen Xiaoqing Tel.: 15980210826
59	Pingtán	Haixi Entry-Exit Animal and Plant Quarantine and Treatment Center, Pingtán Comprehensive Experimental Zone	Biomedicine and related technical services	Investment attraction for park carriers. The project has been completed. Located in the Jinjing area, it covers an area of 133,333.33 m <sup>2</sup> and a total construction area of 73,576.51 m <sup>2</sup> including a quarantine and treatment area, a detection and R&D center, an animal quarantine area, a plant quarantine area, and supporting facilities. We plan to 1. introduce biomedical enterprises, and 2. build a drug safety evaluation center (experimental animal center) and introduce third-party technical service platforms for experimental animal disease models, non-clinical safety research on drugs and medical devices, inspection and detection, new drug screening and evaluation, and other research.	Department of Logistics Trade, Investment Promotion Committee, Pingtán Comprehensive Experimental Zone	Nian Dan Tel.: 18250188893  Chen Xiaoqing Tel.: 15980210826
60	Pingtán	Pingtán Comprehensive Experimental Zone	Comprehensive utilization of marine waste	With a planned land area of 20,000-33,333.33 m <sup>2</sup> , we plan to build a biotechnology R&D center and a production line with a capacity of 300,000 tons per year; extract—through the special technique—the active substances of marine waste such as oyster shells, sea snail shells, conch shells, and abalone shells and apply them to medicine, beauty, and other fields.	Department of Comprehensive Industry, Investment Promotion Committee, Pingtán Comprehensive Experimental Zone	Miao Jianhao Tel.: 15859336989
